(THE PHILIPPINES.) BANDIT WORK.

Gen. Otis Reports Victory
for Our Men.

Lieut. Moore's Detachment Meets
Rebels in Cebu.

Five of the Latter Slain and
Seven Captured.

One American Private Killed—Col.
Bell Enlisting Men—Storm Has
Abated—Volunteers to Be Sent
Home Rapidly.

(ASSOCIATED PRESS DAY REPORT.)

WASHINGTON, July 26.—Three cable messages from Gen. Otis were received at the War Department today. One reports another engagement with bandits in Cebu, in which the American forces were victorious. It bears date of today and is as follows:

"Following from Cebu today: Bandits from Cebu mountains, robbing and impressing people coast towns. Monday Lieut. Moore with detachment Twenty-third Infantry, while scouting in mountains, fired upon from strongly fortified position; one private killed, name not given. No other casualties. Enemy's loss five bandits killed, seven captured."

Another refers to the organization of volunteer regiments in the Philippines as follows:

"Bell has enlisted about five hundred men. Wallace still south, has about four hundred. Lockett now enlisting, has over four hundred applications, which are coming in rapidly. Might raise here an additional regiment, exclusively volunteers."

Col. Bell referred to in the dispatch is in command of the Thirty-sixth Infantry, and Col. Wallace is in command of the Thirty-seventh Infantry. Col. Lockett is in command of the cavalry regiment which is to be raised in the Philippines.

The third dispatch says: "Storm has abated. Sherman coaled, leaves today with all troops California. Grant being coaled; leaves in about four days with troops N.Y., Dakota, Wyoming and Idaho. Minnesota preparing to leave on Sheridan soon as the transports can be unloaded and coaled. Other volunteer organizations leave as transports are available."

Gen. Otis has been cabled to send the volunteers home as rapidly as possible, it being the desire of the President to have no delay in the matter.

TRANSPORTS BOUND WEST.

Ohio and Newport Leave 'Frisco for
the Philippines.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, July 26.—The transports Ohio and Newport sailed at midnight for Manila, carrying the Third Battalion of the Nineteenth Infantry and over seven hundred recruits. The soldiers of the Nineteenth reached the transport dock about 6 o'clock.

Nine women nurses from the East embarked on the Newport. They were chosen by the government because of their experience. There were in addition four young women who had done excellent service as nurses at the Philippines.

INSULAR GOVERNMENT.

The President's Instructions Provide
the Basis for Establishment.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, July 26.—It is stated at the War Department that Gen. Otis has made no communications to the department regarding the organization of any provisional governments in the islands or provinces, but it is presumed that he may be doing so if conditions warrant.

Gen. Otis is acting under instructions from the President, dated December 21, 1898. These instructions said that the destruction of the Spanish fleet, followed by the reduction of Manila, practically effected the conquest of the Philippines and suspension of Spanish sovereignty. They directed that the military government of the United States maintained in Manila be extended, with all possible dispatch, to the district ceded to the United States by the treaty of peace. The military commander was directed to announce that "We come not as invaders or conquerors, but as friends."

Those who submitted were to be promised support and protection; "all the rights will be brought within the lawful rule will be assumed with firmness, if need be, but without severity as far as may be possible."

Suggestions were made as to the government of the ceded territory, and the rights of property, taxes, etc. This letter of the President, together with the instructions of Secretary Hay to the Philippine Commission are the basis of governments which are to be established in the Philippines.

DESERVED WHILE DRUNK.

Private is Returned to Manila for
Court-martial.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, July 26.—On board the transport Ohio, which, with the Newport, sailed at midnight for the Philippines, was Benjamin Givens, private of Co. H, Fourth United States Infantry, manacled and guarded, to be returned to Manila for trial upon the charge of "desertion in the face of the enemy," the penalty for which is death.

The young soldier has been confined in the Presidio guard-house since last Friday. He was taken there from the

transport Indiana. When taken before Col. Freeman at the Presidio today Givens stated that he had not realized for a week after he deserted his post, the enormity of his offense. He had been drinking heavily, and in his half crazed condition went aboard the Indian. Four of his men and the first sergeant of his company, who was coming home in charge of an insane soldier, saw him and reported to the commanding officer. Givens was arrested and placed in custody, and as soon as the vessel arrived he was sent to the Presidio. Cabled orders from Manila directed that he be sent back for trial.

Givens deserted from his company when it was stationed at Blockhouse No. 7, a mile and a half north of Manila. The command was under fire constantly from marauding bands. One day in the latter part of May he went to Manila, drank heavily and cast military obligations to the winds.

PETITION TOO LATE.

Kusaleans Want to Be Americanized
But Germany Buys Island.

(ASSOCIATED PRESS NIGHT REPORT.)

SAN FRANCISCO, July 26.—The Call tomorrow will say that the natives of the island of Kusale, in the Carolines, want to be annexed to the United States. The King, high chiefs and prominent men on the island to the number of seventy-two, have forwarded a petition to that effect to San Francisco, with the request that it be laid before the President. They say not a word about the Spaniards or Germans, but simply that they be taken under the fold of the Stars and Stripes. The petition was forwarded today to the President.

When the barkentine Ruth arrived from the Philippines a few months ago, she brought the news that Germany had obtained a foothold on the island, and the natives were preparing to resist them. Now that Germany has purchased the group from Spain, she will at once take possession, and there there may be a war on Kusale similar to that in the Philippines. The petition of the Kusaleans has arrived too late.

ORGANIZE AT DISCRETION.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, July 26.—It is stated at the War Department that the matter of organizing another regiment of volunteers in the Philippines, in addition to the Thirty-sixth, Thirty-seventh and the cavalry regiment, will be left entirely to the discretion of Gen. Otis, who is authorized to proceed with it.

SPUNKY KANSAS GIRLS.

Won't Marry Unless They Can Get
One of Funston's Men.

(BY DIRECT WIRE TO THE TIMES.)

INDEPENDENCE (Kan.) July 26.—[Exclusive Dispatch.] The girls club of several Southern Kansas towns have resolved never to marry a young man unless he served with the famous Twentieth Kansas Regiment. They say they are determined to keep their agreements and the sooner they marry a man who has served with the Twentieth, the sooner they will remain single all their lives. They intend to give the boys of the regiment a big reception when they return.

CATTLE INSPECTORS.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, July 26.—The Secretary of Agriculture has decided that the regulation recently issued for the free admission of cattle into Cuba next year shall provide for the inspection of department inspectors at Cuban ports, instead of at American ports, as was originally contemplated. The change is made at the instance of the War Department and is intended to prevent the admission of cattle from other countries upon the same terms as from the United States. The position of the regulations, as at first drafted, requiring the stock to be graded, and also be immune from fever, will be retained.

CUBAN CLIMATE FATAL.

(ASSOCIATED PRESS DAY REPORT.)

HAVANA, July 26.—Señor Escalante, who claims to be a practical farmer, has written to the Dílario de la Marina, taking the ground that the scheme for importing 50,000 American cattle into Cuba is impracticable on account of the difficulty of eliminating the animals. He asserts that 40 per cent would die.

CANADA AND THE CABLE.

(OTTAWA (Ont.) July 26.—[By Asiatic Cable.] The Japanese admiral and four officers from the squadron at Ta-ku, Gulf of Pechili, have arrived here to visit the Japanese.

Prince Komura was expected here in connection with pending treaty negotiations, but there appears to be a hitch in the negotiations, with regard to the measure of financial control to be accorded to Japan in return for reorganization of the Chinese army by Japanese officers. In high Chinese circles it is believed that the difficulties cannot be surmounted.

Prince Ching and the Dowager Empress are the principal advocates of the treaty. Others, though approving any arrangement that would be likely to secure China from foreign aggression, are fearful that the treaty might involve China in serious complications.

MONUMENT TO RATHBONE'S MEMORY.

(OTTAWA (N. Y.) July 26.—The monument to the memory of Josè Estay, the founder of the Knights of Pythias, was dedicated here today. Miss Sarah Rathbone of Washington, and Miss Lucetta Rathbone of Virginia, daughters of Rathbone, were present. There was a parade with 250 men. The dedicatory address was made by Supreme Chancellor Semple of Pennsylvania.

THE GOLD FIELDS. GIGANTIC MOVEMENT.

FAIRMOS MARIPOSA TRACT TO BE REOPENED.

One of Largest Gold-mining Properties in the United States and the First Quartz Property Worked in California.

Operations Have Been Suspended for Nearly Thirty-five Years, but Will Be Resumed on a Scale of Magnitude.

Miners of Cape Nome and Anvil City Clash With Authorities—Two Vessels from St. Michael. Hard-Luck Stories.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, July 26.—The famous Mariposa estate, one of the largest gold-mining properties in the United States, and the first quartz property developed in California, is to be reopened and worked, after a suspension of operations for nearly thirty-five years. The gigantic nature of the undertaking makes the news of the first importance and promises to have great influence on the mineral development of California.

The Mariposa grant, as it is often called, is located in Mariposa county, and covers an area of 43,387 acres, or about seventy square miles, being a strip of land fifteen miles in length and of an average of five miles. The principal developments in this great territory are the Princeton, Josephine and Pine Tree mines. In addition there are also the Elizabeth, Green Gulch, Mariposa, Mount Ophir and Mexican, but although the tract is intersected by a network of veins, they are scarcely more than prospects.

From about 1852 to 1865 the property was extensively worked, the Prince mine yielding \$3,000,000 down to the 500-foot level. Since then operations have been conducted in a tentative fashion, mostly in the way of tunnels. They did not give the results immediate hope for, and on that account the estate had been allowed to be idle. One or two tunnels have been constructed and the tunnels in the Josephine, Pine Tree and Princeton mines will be extended on the ore chutes as a starter. The operations will be carried on over the extensive domain.

The work will be of great magnitude, and if it is to be realized an immense gold-mining exploitation will be carried on at no inconsiderable outlay, furnishing work to a large force of men and necessitating the purchase of extensive machinery.

ALASKA AND KLONDIKE.

Cape Nome and Anvil City Miners Clash With Authorities.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE (Wash.), July 26.—Advices received today on the steamer Ellsworth from St. Michael indicate that the miners of Cape Nome and Anvil City are wrought up to a high pitch of excitement over the action of United States Commissioner Shepherd, backed by the United States soldiers.

A miners' meeting of nearly one thousand men was dispersed on the night of July 10 by a lieutenant and a squad of soldiers on the ground that they were not property-owners. The meeting had been called regularly, after five days' notice, to protest against the policy followed in locating claims. The miners declared that the clique or ring had been formed to gobble up all the good properties in the country.

It is charged by the miners who called in Mr. Thompson that the machinery of the Federal government on the Yukon had been turned to their illegal practices. They say that some of the Laplanders who were sent up there under five-year contracts by the government have since been naturalized and claims staked in their names. Even the miners, which these Laplanders had been sent into the country to mark the claims' boundaries for members of the ring.

When the steamer left the miners were signing a protest which is to be forwarded to Washington City. The protest alleges that the officials at St. Michael are conducting the affairs of the government to their own selfish ends.

While relations between the miners and officials are at a high tension, there has been no desire shown to refer to force and no serious trouble is anticipated. The conditions are in such a confused state that nothing is being done. Hundreds of contests have been filed, but that is as far as the men can go. The rich claims on Anvil Creek and Snow Gulch have been sold three or four times over. Men are afraid to prospect, because they say if one should strike anything he would not be able to hold the claim.

BAD LUCHE STORIES.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE (Wash.), July 26.—Two steamers, the Ellsworth and Lakome, arrived from St. Michael, Alaska, today, with 300 miners. They brought a small amount of gold dust, but there was no large individual amounts.

A Kyle, who was the leader of a party of twenty-eight Bostonians, who wintered at Arctic City, was a passenger on the Ellsworth. He says between twenty-five and fifty prospectors were drowned in the Kowack River last season. Their names were unknown to him.

No gold was found on the Kowack. At Beaver, 300 miles north of Arctic City, many deaths were reported last winter from scurvy and exposure. Mr. Kyle also reports that three discharged soldiers and one miner were drowned three weeks ago while trying to cross from St. Michael to Cape Nome in a small boat. He did not know the names of any of them.

PERKINS AND VILLARD.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, July 26.—The excursion steamer Queen arrived today from Alaska. Among her passengers was United States Senator George C. Perkins of California and Henry Villard.

CONSUL MCKOOL REPORTS.

Reduced Estimate of Klondike Output—Alaska Promises Better.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, July 26.—Information from the Klondike up to June 20 has reached the State Department from United States Consul McKoole. The Consul says that \$10,000,000 instead of \$20,000,000 in gold will cover the gold product of the past twelve months, and adds that reports from Alaska indicate that more gold will be found there than ever will come out of the Klondike.

Typhoid has broken out six weeks earlier than last year and there are several hundred persons in Dawson without means to get out. The gam-

bling fraternity is reaping a rich harvest.

LATEST COMERS.

Many Passengers and Little Gold Arrive on the Umatilla.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, July 26.—The steamer Umatilla arrived from British Columbia and Puget Sound today with about forty gold prospectors from the Klondike and a large number of passengers on board. There was very little gold in the possession of the men, who came from Dawson, and \$10,000 would cover the amount of the possessions.

Robert Surratt of this city also came down. He went to the Klondike a year ago, and says that he has two claims in Discovery Creek for which he was offered \$3000 each just before he left Dawson. He reported a sum of \$15,000 in gold, the result of his individual work on his claims last winter.

MONROEISM STANDS.

AMBASSADOR WHITE TALKS OF ARBITRATION.

He Thinks a Vast Majority of the American People Will Welcome the Treaty—A Germ From Which More Complete System May Grow.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, July 7.—[By Atlantic Cable.] The Hague correspondent of the Times reports a long conversation with Andrew D. White, United States Ambassador at Berlin, the head of the American delegation, in which the Ambassador, after referring to the earnest desire of the American people for a comprehensive arbitration scheme as proved by the constant petitions and resolutions of large meetings held in all parts of America, since the conference has been sitting, said:

"I believe a vast majority of our people will welcome our arbitration treaty and see in it a serviceable plan from the outset and a germ from which a more complete system will be evolved by future conferences. As time progresses without doubt conferences of the tribunal will become more and more numerous and the time may come when we may hope to have every advantage claimed for obligatory arbitration without its overwhelming disadvantages. But it could hardly be expected that we should be willing to accept the requirement to sweep away at once here and now the policy of Monroe."

Dr. Lorenzo Ulio, legal adviser of the Immigration Bureau, said there was great difficulty in enforcing the law, owing to the many contradictions found in the statute relating to immigration. A state in point was the law regarding criminals coming to this country whom the law requires shall be returned to the nation to which they belong and the port from which they come. Sometimes the criminal is an ordinary criminal and sometimes a Bremen. He thought the law should say such persons should simply not be permitted to land, and the steamship companies left to do with them as they believed best.

Witness said that in none of the immigration laws was there any provision for the deportation of contract laborers. The laws of 1891 do so by implication and it was under this act that the department was working. The witness said he favored amending the law regarding contract laborers so as to insure any agreement with the contract laborer rigidly, or contract. He would also give persons brought here by the steamship companies contrary to the immigration laws cause of action against the owners of the vessel which brought them.

Mrs. Virginia Stuckler, the chief manager of the steamer *Alaska*, testified regarding the treatment of enciente women arriving here. Of 1441 women arriving during the month in that condition, fifty-two were married at the barge office, twenty-four were admitted to the hospital and the others who had been brought to be married women.

Mrs. Stuckler thought the laws should include an act prohibiting the landing of girls brought here for immoral purposes. There was no such prohibition in the present laws.

FOREIGN CHEAP LABOR.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, July 26.—William Weil, of the contract-labor bureau, who was formerly president of the Amalgamated Association of Iron and Steel Workers, said that 8 per cent of the cheap labor coming here comprises Slovaks, Polaks and Russian Poles, who went to Pennsylvania, where they not only worked on railroads and in the mines, but entered into competition in the industrial centers in the union and glass works.

"It has been shown," said Weil, "that the companies gives the preference to foreigners, even when skilled American workers offer to work for the same wages."

Dr. Egisto Ross, chief of the Italian bureau at the barge office, said his bureau was supported by the Italian government. His government did not encourage emigration to this country. The bureau had been established here to regulate the padrone system and the practice of keeping records of Italian immigrants arriving in this country. While he would not say his bureau had destroyed the padrone system, yet he had been able to prevent many new arrivals from Italy coming into contact with the bankers and padrone system.

"Do you still regard Italian immigrants in this country as colonists?" asked Chairman Smith.

AS TO ADHESION.

[ASSOCIATED PRESS NIGHT REPORT.]

THE HAGUE, July 26.—Sir Julian Faunceote, head of the British delegation, having descended that the non-signatory powers be entitled to adhere to the arbitration convention only by the unanimous consent of the signatory powers. Count Nigra, chief of the Italian delegation, proposed an amendment, permitting such adhesion if no power opposed. It is hoped that the British Foreign Office will accept the amendment.

OIL TROUBLES SETTLED.

National and American Linseed Companies Adjust Differences.

[A. P. EARLY MORNING REPORT.]

NEW YORK, July 26.—Guy G. Major, president of the American Linseed Company, made the following statement in reference to the adjustment of the settlement between the National Linseed Oil Company, and the American Linseed Oil Company:

"The officials of the National Linseed Company and the American Linseed Company have been in communication since last Friday morning, adjusting accounts between the two companies. Substantially all matters of difference have been adjusted and the officials are now engaged in making out a complete statement of accounts between the two companies. A statement to the stockholders of the National Linseed Oil Company will be issued during the coming week."

In reference to the report from Minneapolis that Douglas & Piper would erect a new linseed-oil mill at Minneapolis, a company having been formed and \$400,000 invested in the plant, it is said, to be purchased by the American Linseed Company, part of the contract and consideration was that neither Piper nor Douglas should enter into the manufacture of linseed oil for the purpose of competition. It would be absolutely impossible, it is said, to operate a plant of the size mentioned with the amount of capital named.

MURDER'S WIFE AND DAUGHTERS.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE, July 26.—The excursion steamer Queen arrived today from Alaska. Among her passengers was United States Senator George C. Perkins of California and Henry Villard.

CONSUL MCKOOL REPORTS.

Reduced Estimate of Klondike Output—Alaska Promises Better.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, July 26.—Information from the Klondike up to June 20 has reached the State Department from United States Consul McKoole. The Consul says that \$10,000,000 instead of \$20,000,000 in gold will cover the gold product of the past twelve months, and adds that reports from Alaska indicate that more gold will be found there than ever will come out of the Klondike.

Inspector Dobber Testifies That Many Immigrants Come in the Second Cabin in Order to Avoid Rigid Scrutiny.

Clerks With Forty or Fifty Dollars in Their Clothes Steam Over to America to Eventually Become Public Chances.

Mormons Always Secure Good Accommodations—Need for Amendments to the Law—Italian and Other Contract Labor.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, July 26.—At today's session of the sub-committee of the United States Industrial Commission, Roman Dobber, chief of the Board of Inspectors of Immigration at the barge office, testified that his experience was that clerks coming to the United States by second-cabin passage, with \$40 or \$50, were the first to become public charges.

The witness prepared a table showing the comparison between passengers in the second cabin and the steerage. On such lines as the North German Lloyd, Cunard, American, Anchor and White Star lines, the number of saloon passengers almost equalled the arrivals in the steerage. In vessels from Mediterranean ports, however, the steerage passengers greatly exceeded the other classes. Mormons, he said, always came on vessels of the Anchor line, from Liverpool, and in the steerage cabin. His figures showed that while 2032 passengers came from Italian ports in the steerage, only 25 came as cabin passengers.

Mr. Dobber said that many persons came in the second cabin, in order to avoid the rigidity of the barge office. He believed many of the new arrivals had been coached as to their answers to questions put to them here. Dr. Lorenzo Ulio, legal adviser of the Immigration Bureau, said there was great difficulty in enforcing the law, owing to the many contradictions found in the statute relating to immigration. A state in point was the law regarding criminals coming to this country whom the law requires shall be returned to the nation to which they belong and the port from which they come. Sometimes the criminal is an ordinary criminal and sometimes a Bremen. He thought the law should say such persons should simply not be permitted to land, and the steamship companies left to do with them as they believed best.

COAST RECORD
LOS ANGELES LOSES.SUPREME COURT DECIDES THE
CENTRAL PARK CASE.

In this act he was ably assisted by Mlle. Houdini. Before he had fully completed the task the gates were shut, and the handcuff monarch had missed the train. It was ten minutes past 5 o'clock before he got the straps unbuckled and drew out the missing tickets.

RIVERSIDE MAN MARRIES.

Sidney de Wolf Pelton Takes a
Bride at Pueblo.

[BY DIRECT WIRE TO THE TIMES.]

FUEBLO (Colo.) July 26.—[Exclusive Dispatch.] Sidney de Wolf Pelton and Miss Luna Evelyn Dickerman, daughter of Mr. and Mrs. Aldrich Dickerman, were married to-night at the home of the bride's parents by Rev. J. F. Harris, presiding elder of Pueblo district of the Methodist Church. The ceremony was witnessed by a large number of Pueblo society people, and was one of the social events of the season.

After the ceremony, a large reception was held, and at 11 o'clock Mr. and Mrs. Pelton left on the Santa Fe for the East for an extended wedding trip as far as Yarmouth, N. S. Pelton's former home. His present residence is in Riverside, Cal. Miss Dickerman has one of the social favorites in Pueblo, and is a prominent musician.

TEPERANCE WORK.

Summer School of Methods at Pacific
Grove Accomplishes Much.

[ASSOCIATED PRESS NIGHT REPORT.]

PACIFIC GROVE, July 26.—An important Executive Committee meeting marked the beginning of today's work of the W.C.T.U. summer school of methods, during which much business connected with the management of the temperance work in California was accomplished. In one of the reports read the fact was brought out that the increase in membership in the various local unions of the State during the past few months is greater than ever before in the short space of time in the history of the work on this Coast. This is accounted for in two ways, first, the increased interest being shown everywhere in temperance work in all its branches, and second, the contest for large delegations to the national W.C.T.U. convention that is affecting all States.

The first regular session of the day was held this afternoon, Mrs. S. Peet presiding. The first subject under discussion was the Pacific Ensign, the temperance organ of the Pacific Coast. Mr. Alice Bradley, business manager, gave a financial statement, and the paper, and Mrs. M. C. Lord, the editor, spoke of the policy and work of the paper. "Mothers' Meeting," by Mrs. Ida M. Jamieson; "The Church for Temperance," by Mrs. L. P. Willard; "Shall We Possess the Land," by Mrs. D. Spencer, were the notable papers read this afternoon, but the chief event of the session was an address on the relation of total abstinence to missionary work delivered by Mrs. Mary F. Phillips of the W.C.T.U. in India.

The evening session opened with a devotional service, conducted by Mrs. A. B. Gove. Mrs. E. Morris, local organizer of the W.C.T.U., delivered the address of the evening, her theme being "Personal Liberty and the Remedy for Hard Times."

The chief emphasis by the speaker that instead of being opposed to the American principle which declares all entitled to "life, liberty and the pursuit of happiness," the temperance movement is designed to maintain that principle and give "life, liberty and the pursuit of happiness" to those who do not have them.

WEATHER AND CROPS.

Unusual High Temperature Has
Helped Fruit—Barley Improves.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, July 26.—The following summary of weather and crop conditions has been issued by the Weather Bureau:

The temperature has been nearly normal, and there has been no rain except occasional showers in the mountains of Southern California. Very high temperatures prevailed on the afternoons of Monday, Tuesday and Wednesday of last week in some localities reaching 110°. No injury resulted from these high temperatures, which is rather unusual. The summit of the line is excepted, as the sun's heat does not let it exceed ten marine leagues from the sea.

PERKINS HAS PROOF.

Senator Says There is Nothing to
Arbitrate in Alaskan Boundary.

[ASSOCIATED PRESS NIGHT REPORT.]

SEATTLE (Wash.) July 26.—United States Senator George C. Perkins, who returned here today from a trip to Alaska, thinks there is nothing to arbitrate in connection with the Alaskan boundary. He said:

"It would certainly be just as reasonable for us to insist on taking up the boundary question between the United States and Canada again and decide it by arbitration with the forty-ninth degree of latitude. England long ago recognized the boundary for which we are contending. She did this when the Hudson Bay Company, which at that time was practically Canada, executed a ten-year lease from Russia, for which she is now content. She leased it from Russia and renewed the lease for a second year."

"What better proof could we ask of Great Britain's attitude as outlined in that contract. Portland canal is ours, and we should see that the line is extended to the summit as long as the range does not let it exceed ten marine leagues from the sea."

GUATEMALAN RAILROAD SOLD.

New York Syndicate Gets What
Uncle Collis Refused.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, July 26.—President Cabrera of Guatemala has advised Consul-General Galeazzo of the part of the sale of the Guatemalan Central Railroad to a New York syndicate.

This road was originally planned by Rufino Barrios to extend from the city of Guatemala eastward to Port Barrios, where connection can be made with the Orinoco River. It was completed when finished. It would be an extension of the Pacific Improvement Company's road, which connects the city of Guatemala with the Pacific seaboard.

There are yet sixty miles of road to be completed. There were three prospective purchasers, one of them being Mr. Huntington, and the others two New York syndicates. Huntington, it is said, declined to buy the road. Which of the two New York syndicates is the purchaser is not stated in his message. However, it is informed that the Consul-General as a result of the sale, exchange in Guatemala, which recently advanced to 4.80, has fallen to 3.80.

ALLEGED MURDERER ARRAIGNED.

Cornelius Manning Examined for
Killing a Woman at 'Frisco.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, July 26.—The examination of Cornelius Manning, accused of causing the death of Mrs. Mary Kennedy, was begun today before Police Judge Conlan. The night of July 4, John Kennedy and Mrs. Kennedy were visitors at the home of Mrs. Bridget Manning, No. 214 Jones street.

During the evening some trouble arose, and it was alleged that Manning caught up a lighted lamp to throw at his mother. Mrs. Kennedy sprang forward to stop him, and he caused the lamp in her hand to fall, enveloping in flames and she was fatally burned. Manning was arrested for murder, but owing to the continuing illness of his mother, his preliminary hearing has been continued from time to time.

ESPEE PAY CAR DAMAGED.

Accident Caused by Someone Leaving Morley Switch Unlocked.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, July 26.—The funeral of the late Lloyd Tevis took place this afternoon from the family residence on Taylor street. The simple, but impressive, services were conducted by Rev. R. C. Foute, rector of Grace Episcopal Church. No eulogy was delivered, and there were no pall-bearers, the remains being accompanied to Laurel Hill Cemetery only by the family and immediate friends.

The casket was placed in the Wilson mausoleum, where it will remain until the arrival from Paris of Mrs. Fred Sharon, a daughter of the deceased.

The attendance at the services was very large, and included many of the most prominent people of the city and State.

The spacious parlors were filled with floral offerings, and for hours before the funeral the steady stream of people passed through the chamber of death, to view the remains of the man whom they had

known or who had befriended them during his eventful life.

It is expected that the will of the dead capitalist will be opened tomorrow, though its contents are not known, the impression prevailing that the bulk of the property in this city will go to the wife, and the outside holdings to the children. A conservative estimate of the value of the estate is \$15,000,000.

GENTRY MUST RETURN.

New Mexico Robber Turned Over to Socorro County Sheriff.

[ASSOCIATED PRESS NIGHT REPORT.]

REDDING, July 26.—Sheriff Charles F. Blackington of Coconino county, N. M., arrived in Redding today after Ernest Gentry, arrested here three weeks ago, and who is wanted in Alamogordo for robbery. Sheriff Blackington was delayed in reaching Redding, and the local officers had a hard time getting Gentry to return.

Gentry is accused of stealing \$6000 in soldiers' homestead script from the Alamogordo Lumber Company April 10 of this year. Gentry and two companions, one named Jacky Messer, entered the lumber company's office and made six men inside throw up their hands.

Gentry got the money and got away with the negotiable bonds. Gentry rode 100 miles and took the train for California. Messer was caught and confessed, implicating Gentry. Sheriff Blackington has been on Gentry's trail for the last three months. The officer believes he knows where the officer is located.

Blackington had some difficulty in obtaining a requisition for extradition from Gov. Otero of New Mexico on Gentry. Gentry will be taken back to New Mexico to stand trial for robbery.

Blackington is a veteran sheriff of New Mexico, is praised for his good work in locating Gentry.

ANOTHER STEAMER LINE.

American-Hawaiian Steamship Com-
pany Going into Business.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, July 26.—The keel of the largest merchant steamer ever built on the coast will be laid at the Union Iron Works within the next few days, and the event will mark the laying of the foundation of another line of steamers sailing out of this port.

The new vessel will be named the California, and will be owned by the American-Hawaiian Steamship Company. Two more steamers are to be built immediately, and it is expected that at this time a year hence the line will be in operation. All three steamers are to be freight carriers, and will ply between Honolulu and New York. From New York and the end, they will carry general merchandise to Honolulu, and from the latter place will take sugar to both ends of the line.

The California will be not only the biggest vessel in the merchant marine of the Pacific, but will be the largest freight carrier ever seen in these waters. She is to be 415 feet in length, 51 feet in breadth of beam and 33 feet in depth of hold. Her carrying capacity 8250 tons.

COAL PILED ON THEM.

Two Miners Lose Their Lives by a
Cave-in.

[ASSOCIATED PRESS NIGHT REPORT.]

LIVERMORE, July 26.—As a result of a cave-in at the Tesla coal mine today two men lost their lives. The damage to the mine is said to be very great. The remains of one of the men employed in the shaft where the accident occurred was dug from beneath tons of coal and debris, and a gang of men is still at work searching for the body of the other workman.

The corpse dug out of the drift is that of John Wachendorf, 30 years of age. Superintendent Bartnett claims to have no clew to the identity of the other miner, who is supposed to have perished with Cordich. Cordich was a contractor, and was working on his own account in a drift. It appears that he neglected to put in the necessary timbering, and a cave-in was the result.

COAL PILED ON THEM.

He Shouted "You Lie."

SAN FRANCISCO, July 26.—There was a sensational scene this afternoon in Judge Treadwell's court at the preliminary examination of Dr. C. C. J. Wachendorf on the charge of murdering John Kehlenbeck. One of the witnesses, George Fisher, was testifying when Wachendorf started everyone in the court by rising to his feet and shouting: "You lie!" He was severely reprimanded by the judge, and he did not recover his composure for some time.

DIED IN A BOX CAR.

SACRAMENTO, July 26.—Coroner McMillen tonight held an inquest on the body of a young man who was found dead in a box car on the river front this morning. A man who had talked with the dead man said the latter told him he came from San Jose. The deceased had one wooden leg. He was subject to bleeding at the lungs. It was in one of these attacks he died. He had been a patient at the County Hospital under the name of Fred Tut.

A man who had talked with the dead man said the latter told him he came from San Jose. The deceased had one wooden leg. He was subject to bleeding at the lungs. It was in one of these attacks he died. He had been a patient at the County Hospital under the name of Fred Tut.

FRESCO INVITES VETERAN FIREMEN.

FRESNO, July 26.—At a meeting of the volunteer fire department last evening an invitation was extended to the veteran firemen of San Francisco to visit Fresno's Admission day on their annual outing. The local firemen had been assured by individual members of the veterans that the association would accept such invitation if it were extended. A committee on arrangements has been appointed, and the veterans will be royally entertained.

TEAMSTERS ASK MORE PAY.

REDDING, July 26.—Thirty teamsters engaged in hauling lumber from Shingletown mills to Cottonwood have gone on a strike, tying up the business. The teamsters have been receiving \$7 a thousand, and they demand \$8. The strike was commenced on Tuesday, at noon, all teaming stopped. Six or seven mills are involved. The striking teamsters think their demand will be met.

GREENWOOD GOT HIS DESERTS.

UKIAH, July 26.—Caleb Greenwood was killed yesterday by a man named George Young. The killing occurred at Monroe settlement, eight miles northwest of this city. Greenwood was assaulted Young and brutally injured him. Young went to his cabin, got a Winchester rifle and fired two shots. Greenwood lived seven hours. Young is now in jail.

ILLEGAL FEES AND SALARIES.

HILLSBORO (Ore.) July 26.—The report of a committee appointed three months ago to examine the records of county officers for the past ten years has shown that in that time the illegal fees and salaries drawn by the different county officials aggregate \$56,200. Suits against the various officers to recover that amount, will be insisted upon by taxpayers.

EQUALIZERS HEARING ARGUMENTS.

SACRAMENTO, July 26.—The State Board of Equalization met this afternoon and heard the argument of F. S. Bush, a contractor, in the assessment of the Sierra Valley Rail road. The road is forty miles long and last year was assessed for \$162,000. Since then four miles of new road have been built.

PORTLAND PASTOR DIES.

PORTLAND (Ore.) July 26.—Rev. John Morrison, a prominent clergymen of this city and pastor of the Calvary Presbyterian Church, died this morning of pneumonia. His body was enveloped in flames and she was fatally burned. Morrison was arrested for murder, but owing to the continuing illness of his mother, his preliminary hearing has been continued from time to time.

FROM ASSAYING TO BURGLARY.

SACRAMENTO, July 26.—George Bingay, a young man, was arrested here tonight on a dispatch from Nevada, charging him with burglary. Bingay was released here, and a few days later was engaged in assaying. His father was an old-time news-paper man.

ROBBERS SENTENCED TO FOLSOM.

SANTA ROSA, July 26.—This morning Judge Burnett sentenced Joseph H. Shubert, 21, to Folsom for the robbery of John Shubert near Healdsburg. Last week two others received a similar sentence to San Quentin for the same offense.

SIERRA RAILROAD EXTENSION.

ANGELA CAMP, July 26.—Sierra railroad officials announced that the company will complete the extension of the road to this place before the end of the year. The surveys are completed, and as soon as a sufficient number of laborers can be secured, the construction work will be commenced.

CHRISTIAN CHURCH CONVENTION.

SANTA CRUZ, July 26.—The Christian Church convention in Garfield Hotel today the State board was elected as follows: S. M. Jefferson, Berkeley;

WERNER ACTOR IS DYING.

NEW YORK, July 26.—Frank Tannhill, the veteran actor, is dying of Bright's disease in this city. While there is no hope of his recovery, skillful nursing may prolong his life for some days.

LLOYD TEVIS'S REMAINS.

Body Placed in a Mausoleum—Will
Be Read Today.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, July 26.—[Exclusive Dispatch.] "King of the Handcuffs," and "Wizard of the Caged Trunk," met his match this afternoon with a plain, ordinary telescope basket. He went down to the ferry depot with his sister, a few minutes before 5 o'clock, intending to take the train for Los Angeles. Upon their arrival at the depot they began to search for their tickets. Houdini went all through his pockets without finding them, and Mlle. Houdini then remembered that they were inside the telescope basket. With the clock pointing at three minutes to 5 o'clock, the man who can tie an Oregon boot into a bow knot in fifteen seconds and escape from a sealed bag inside a padded trunk in the winking of an eye started to take the straps from the basket. To quote from his own stage speech:

"I COULD RECORD
LOS ANGELES LOSES."

Opinion of the Lower Court That
the City Had Never Accepted the
Property Sustained by the
Higher Tribunal.

Proposed Subdivision of the Land
into Building Lots by the For-
mer Owner Therefore Not
Warranted in Law.

Weather and Crop Conditions—Sale
of Guatemala Railroad Reported.
Southern Pacific Pay Car De-
railed—Tevis's Funeral.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, July 26.—Several

years ago F. E. Kysor of Los Angeles plotted a tract of land lying near the city, and one part was reserved as a park, the rest being cut into building lots, and put upon the market by the Vernon Street Railroad Company, to whom Kysor had sold the property.

The park had been used as a pleasure

resort which the city had never accepted the property sustained by the higher tribunal.

Proposed subdivision of the land into building lots by the former owner therefore not warranted in law.

[STRIKES.]
ELOQUENCE WINS.

PRIEST PREVENTS A STRIKE AT NEW YORK.

One Thousand Freight-handlers Return to Work After Hearing Him Speak Against the Evils of the Custom.

Men Advised to Arbitrate Their Differences and Resort to Peaceful Means of Settlement Accept the Advice.

Rioting Continues at Cleveland and Naval Reserves are Stoned in Trying to Suppress a Mob. Other Strikes.

[BY DIRECT WIRE TO THE TIMES.]
NEW YORK, July 26.—[Exclusive Dispatch.] The eloquence and good sense of Rev. Father Daniel J. Brady, pastor of St. Mary's Roman Catholic Church in Jersey City, prevented 1000 freight-handlers on the Pennsylvania road from going on a strike for increased wages today. The men have been demanding 20 cents per hour, and when they quit at noon it was with the intention to stay out until their demand was met.

As they left the church Father Brady appeared among them and asked to be heard. He declared that strikes destroyed the peace and happiness of laboring men, and said that those that encouraged them were enemies of society. He advised the men to arbitrate their wrongs, and resort to every peaceful means before resorting to a strike. This advice was taken with a cheer.

RIOTING CONTINUES.

Cleveland Street-car Men Attack Soldiers With Stones.

[ASSOCIATED PRESS NIGHT REPORT.]

CLEVELAND, July 26.—The storm center of the street-railway strike has, according to the authorities, settled in Brooklyn, a suburb connected with Cleveland by a long high bridge. At noon 150 employees of the Born Steel Range Company blockaded a car on the bridge and dragged the motorman and conductor from their posts, inflicting with their fists and other weapons injuries more painful than serious. Soldiers on guard at the barn, about half a mile away, hurried to the scene, but the rioters had taken refuge in the factory, which stands under the approach to the bridge. The factory was surrounded and the premises searched, but there was no clue by which the guilty ones could be picked out, so they bent their efforts in assisting the blood-stained motorman and conductor to move the car, most of the windows of which had been broken by stones.

Gen. Axline, in command of the troops here, in order to personally view the situation, took a ride today on an Orange-street car. He was in civilian dress, and the car was stoned at various intervals all along the route. The general took other trips through the troubled districts, but declined to give his views of the situation. The vigilance of the guards while daylight aided them in preventing trouble of a serious nature.

Preparations for mass meetings at various points were made during the day. It is expected that a large one will be held in Monumental Square in the heart of the city, tomorrow night, unless the Mayor prohibits it. In preparation for one a platform was today erected in the square. It is intended to protest against the action of Mayor Farley of Cleveland, who has assumed, under the authority of an almost forgotten statute, supreme police power in Cuyahoga county. This leaves Mayor Phelps of the suburb together with his constabulary, shorn of their power, and they don't like it.

The two Mayors are not on the terms that existed between the storied Governors of the two Carolinas. The soldiers and Cleveland special police in Brooklyn are not allowed to use their guns, but in the suburbs it is said, and upon various occasions bayonets were of a necessity to convince shop-keepers that it was wisest to sell soldiers what they wanted. Mayor Farley today mailed Mayor Phelps a letter, in which he advised that the rebel land cohorts had any more trouble about getting water. Cleveland, which pumps the water to the suburb, would break the truce and let the whole hamlet go thirsty. Mayor Farley also issued a statement to the strikers in which he said a man who was more loyal to his labor union than to himself and his country was a coward and a bad citizen.

Cars were run on twelve lines of the Big Consolidated today and on most of the lines last night. President Mason of the National Union of Street Car Employees, however, today declared that as the street-car company, according to his information, was losing thousands of dollars every day, the strike would have to be settled upon advances made by the company. In the face of this President Mason took again to the board of arbitration that the company had nothing to arbitrate. The board is unable to take action looking to a settlement in view of the attitudes of the opposing forces.

The task of distributing the soldiers was today completed by Gen. Axline. Many of them were sent up to the borough, which includes the turbulent section of Broadway to Pearl street and to Windemere, where the streetcar company has the more valuable part of its property stored. A company was seen to Collingswood also. Mayor Farley declared that he would suppress violence if he had to call out the entire National Guard of Ohio.

A boy was shot by a non-union conductor, but whether or not the bullet was an accidental one the police have not yet determined. Frank Wright, 13 years old, was sitting on the front porch of his home at No. 23 Franklin avenue, when an electric car came along. Although there was no disturbance in the neighborhood at the time, it is stated the conductor, who was on the front platform with his motor-man, was a revolver in his hand. Suddenly it was discharged and young Wright gave a cry of pain. The police had entered his right leg just below the groin. The car ran on to Euclid avenue and ran into the barn. When the police arrived the conductor was not to be found.

TROOPS ARE STONED.

[ASSOCIATED PRESS DAY REPORT.]

CLEVELAND, July 26.—About fifteen hundred troops are now acting in cooperation with the regular police force of the city under direction of the Mayor and command of the head of the military powers of the State. President Everett of the Big Consolidated has announced that he will take back 150 of the old men provided they will apply individually. He adds that possibly this number may be increased as vacancies occur as a

result of the "weeding-out" process to take place among the newly-employed men. The strike leaders have insisted that every man must be taken back, and above all that the union must be recognized by the company. They claim that their ranks remain practically unbroken and that they are in a position to hold out definitely.

A riot which was not reported until today, occurred at Collingwood, a suburban town, late last night, at the crossing of the Big Consolidated and Share electric lines. A spike placed between the ends of two rails caused the car to jump the track. A mob of 400 quickly gathered and pelted the non-union crew with all sorts of stones and sticks. The strikers and the non-union men on it received similar treatment. Eventually the crews of both cars were chased away. A call for assistance was responded to by Capt. Radder of the Naval Reserves. He addressed the crowd and said it would take a charge unless it immediately dispersed. The mob answered with a shower of stones and bricks, a number of persons, including several members of the reserves, being struck and slightly injured. A charge with fixed bayonets was then ordered and the mob quickly scattered in all directions.

CORCORAN TRIAL ENDED.

Jury Given the Case at Wallace, Idaho—Conspiracy Instructions.

[ASSOCIATED PRESS NIGHT REPORT.]

WALLACE (Idaho), July 26.—The trial of Paul Corcoran on a charge of murdering James Cheyne at Warder April 29, during the riots, was concluded tonight, and the case given to the jury. Judge Stewart, in his instructions to the jury defined murder in all its degrees, under the statutes, and continuing, said: "Conspiracy may be established by circumstantial evidence whether the act was done by a member of a conspiracy, or whether the identity of the person who committed the act be established or not."

The testimony given today bore chiefly upon the relations of the smelters to other industries, showing that practically all the people of the State are suffering on account of the cessation of work. Managers J. B. and Dennis Sheedy both claimed that it was impossible to work an eight-hour day and the increase of wages demanded by the men as the increased expenses would have to be placed upon the producers of ores and would lead to the closing of many low-grade mines.

CARLOADS OF NEGROES.

[ASSOCIATED PRESS NIGHT REPORT.]

INDEPENDENCE (Kan.), July 26.—A Missouri Pacific passenger train today passed through here with two coaches of negroes from Alabama for Weir City to take the places of the striking miners there. An effort was made to keep the negroes from entering Kansas, but the train was delayed. The negroes are locked in cars and guarded by armed men, as trouble is expected at Weir City. The feeling is very strong there against the imported negroes, who have already caused trouble.

COOK COUNTY BRICKMAKERS.

Will Obey Orders and Try to Paralyze Building Operations.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, July 26.—Brickmakers in all the union yards in Cook county will stop work tomorrow morning, in pursuance of an order for a general strike passed today by District Council No. 1, of the National Brickmakers' Alliance.

The strike is considered by the manufacturers and contractors one of the most serious that has occurred in years, and if it continues for only a short period, it will paralyze all the building operations in the city and country.

If a conspiracy, having for its object the driving out of the non-union men and the prevention of non-union men from working is fully proved to your satisfaction beyond a reasonable doubt, the conspirator in furtherance of the conspiracy are acts and declarations of each one of the conspirators. To find an act of conspiracy, even though the party accused in the case, if you find that defendant did no overt act in carrying out the conspiracy, even though he knew of it and did not assent, such knowledge would be sufficient to warrant you in presuming that he was guilty of the crime charged."

DETROIT IS AGITATED.

Its Street-car Men are Considering a Strike.

[ASSOCIATED PRESS DAY REPORT.]

DETROIT (Mich.), July 26.—A strike of street railway employees of Detroit is among the possibilities of the near future. The Executive Committee of the local union was in conference this afternoon with the company officers, the chief issues being changes in the number of working hours, and an increase in pay from 21 to 25 cents per hour.

Under the present agreement, a day's work is limited to ten hours, to be performed within twelve hours, with a half hour's leeway for half a trip when necessary. The men want it changed from ten to nine, and from twelve to eleven.

The more radical of the men favor tieing up the lines if the increase in pay is not also granted.

STRIKERS ARE DEFEATED.

[ASSOCIATED PRESS DAY REPORT.]

DETROIT (Mich.), July 26.—The combination strike and lookout in the Fine-Grain-Smith shoe factory has ended. All the 600 employees will resume work tomorrow. The company has gained a victory over the union, but according to the strike leaders, there will be more or less warfare against the factory of the International union.

HANNA'S MEN DISAPPOINTED.

Conference Proven of Little Benefit to the Ore-handlers.

[ASSOCIATED PRESS DAY REPORT.]

ASHONTABULA (Ohio), July 26.—The result of the conference between the committee of striking ore-handlers and Manager L. C. Hanna of the M. A. Hanna docks, held in Cleveland, was unsatisfactory, although some concessions were offered. The company consented to dismiss Chief Engineer McNut, but declined to let Superintendant Razer go. The strikers have not yet taken action looking to a settlement in view of the attitudes of the opposing forces.

The task of distributing the soldiers was today completed by Gen. Axline. Many of them were sent up to the borough, which includes the turbulent section of Broadway to Pearl street and to Windemere, where the streetcar company has the more valuable part of its property stored. A company was seen to Collingswood also.

Mayor Farley declared that he would suppress violence if he had to call out the entire National Guard of Ohio.

A boy was shot by a non-union conductor, but whether or not the bullet was an accidental one the police have not yet determined. Frank Wright, 13 years old, was sitting on the front porch of his home at No. 23 Franklin avenue, when an electric car came along. The strike leaders have insisted that every man must be taken back, and above all that the union must be recognized by the company. They claim that their ranks remain practically unbroken and that they are in a position to hold out definitely.

PITTSBURGH'S MESSENGERS.

[ASSOCIATED PRESS DAY REPORT.]

PITTSBURGH, July 26.—The strike of the Western Union telegraph messengers ended today, and the boys are all at work again. They claim that the company has promised to concede their demands, but this is denied by officials. About thirty messengers were out today for the same pay and hours as demanded by the Western Union boys. The strikers made no attempt to interfere with the boys still working.

TAILORS WILL TAKE A HAND.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, July 26.—The secret Brotherhood of Tailors in a secret conference today with the representatives of the independent unions, decided that it would take up the battle of the striking coat-makers. Accordingly about 1500 tailors belonging to the Western Union boys. The strikers made no attempt to interfere with the boys still working.

The Kind You Have Always Bought

[ASSOCIATED PRESS NIGHT REPORT.]

DENVER, July 26.—The State Board of Arbitration today concluded its investigation in this city of the causes of the deadlock between the smelters and their workmen, in consequence of which the smelters that are in the trust have been idle since June 15. The board will take testimony at Pueblo tomorrow, and will reassemble in Denver Friday, to hear arguments. The impression is gaining ground that the board's decision will be accepted by both sides to the controversy, and that the smelters will resume operations next week.

The SMELTER DEADLOCK.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, July 26.—The secret Brotherhood of Tailors in a secret conference today with the representatives of the independent unions, decided that it would take up the battle of the striking coat-makers. Accordingly about 1500 tailors belonging to the Western Union boys. The strikers made no attempt to interfere with the boys still working.

[SPORTING RECORD.]

HAS SOME SENSE YET

AND JEFFRIES MAY TURN THE SAME INTO DOLLARS.

He Says He's Not in the Fighting Game for Fun, but to Get a Bank Account Before He Gets a Licking.

Thinks He Can Polish Off Sharkey and Will Accommodate McCoy If the Latter Insists on Making the Match.

Jockey Sullivan Suspended—Arrest of a Bookie—Grand Circuit Races—Columbus—Defender Race Postponed.

ASSOCIATED PRESS NIGHT REPORT.

NEW YORK, July 26.—James J. Jeffries, the pugilist, arrived today in this city after a pleasant tour across the country. The big fellow will sail for Europe tomorrow on the North German liner Fuerst Bismarck. He is in prime condition for his contests with Charlie Mitchell and Jim Smith, which are to take place abroad within a fortnight.

Jeffries will return here about September 15 when he will go into training at Asbury Park for his fight with Sharkey.

"The sailor," said Jeffries, "has been doing considerable talking about how quickly he will polish me off when we meet. I don't say I will beat him in a punt in four rounds, but anything of that sort. Sharkey is a big fellow and has a chance to beat me, but I think I will get the decision when we meet."

Regarding a match between himself and McCoy, Jeffries said he did not consider the "Fool" in his class. McCoy said "he is a good clever middleweight, but has no chance against heavyweights. If McCoy, however, insists on a match with me, he can have it, provided he will agree that the winner take all. I am not in the fighting game for fun. I want to get all the money I can in the game there is in it while I am on the road. When some fellow comes along and beats me, I want to have a bank account on hand. A beaten fighter is not of much account unless he has money in the bank."

JEFFORDS AND JACKSON.

ASSOCIATED PRESS NIGHT REPORT. PORTLAND (Or.) July 26.—Jim Jeffords, the heavyweight, who is now in this city, today practically concluded negotiations for a twenty-round fight with Peter Jackson at Victoria, B. C., where Jackson now is.

EASTERN BASEBALL.

Reds Lose One Game to Boston, but Take the Second.

ASSOCIATED PRESS NIGHT REPORT.

CINCINNATI, July 26.—The Reds played miserably in the first game. The second was a pitchers' battle of ten innings. The attendance was 4600. Score:

First game: Cincinnati, 5; hits, 4; errors, 5.

Boston, 9; hits, 13; errors, 2.

Batteries—Hawley and Peitz; Willis and Clarke.

Umpires—Smith and Latham.

Second game: Cincinnati, 2; hits, 6; errors, 1.

Boston, 1; hits, 7; errors, 2.

Batteries—Phillips and Woods; Bailey and Clark.

Umpires—Smith and Latham.

PHILADELPHIA-CHICAGO.

ASSOCIATED PRESS NIGHT REPORT.

CHICAGO, July 26.—After an easy fly in the first, presented the Phillips with two runs as a starter. They made two more in the fifth by good hitting, and clinched the game in the seventh. The attendance was 3000. Score:

Chicago, 5; hits, 9; errors, 3.

Philadelphia, 7; hits, 11; errors, 1.

Batteries—Taylor and Donahue; Donohue and McFarland.

PITTSBURGH-WASHINGTON.

ASSOCIATED PRESS NIGHT REPORT.

PITTSBURGH, July 26.—Tannehill was a puzzle for the Senators. The attendance was 1800. Score:

Pittsburgh, 8; hits, 15; errors, 4.

Washington, 1; hits, 5; errors, 4.

Batteries—Tannehill and Bowerman; Mercer and Kirttredge.

Umpires—Swartwood and Hunt.

BROOKLYN-LOUISVILLE.

ASSOCIATED PRESS NIGHT REPORT.

LOUISVILLE, July 26.—Hughes not only pitched a great game for Brooklyn, but scored the winning run for his team with a double when he and Jones made a double steal. The attendance was 2500. Score:

Louisville, 2; hits, 5; errors, 1.

Brooklyn, 3; hits, 5; errors, 1.

Batteries—Woods and Zimmer; Hughes and McGuire.

Umpires—Lynch and Connolly.

ST. LOUIS-NEW YORK.

ASSOCIATED PRESS NIGHT REPORT.

ST. LOUIS, July 26.—Seymour was very wild. The attendance was 2700. Score:

St. Louis, 4; hits, 8; errors, 1.

New York, 3; hits, 10; errors, 1.

Batteries—Young and O'Connor; Seymour and Warner.

CIRCUIT RACES CROWDED.

Favorite in One Race at Cleveland Drops Dead.

ASSOCIATED PRESS NIGHT REPORT.

CLEVELAND, July 26.—There was a big crowd at the grand circuit race today, nearly ten thousand persons being present when the bell sounded. There was a long card, five events being scheduled, including the unfinished 2:19 trot. That was the first race, and it furnished a sensational incident. As the horses were being warmed up Hazel Ridge, who ruled as favorite in the betting early in the day, fell dead. He was owned by Charles Gauntlett of Milan, Mich. Grand Baron took the first heat and looked like a winner, but Temper won the second heat, and Doerler took the next two heats and the victory.

The 2:19 pace was easily settled by Fitter, who took the two heats next, save after a close finish in the first with Edward S. Arbuskian, who had been played as a winner in this event. There was a big field and lot of interest in the 2:27 trot and Merriment, after a bad finish in the second heat, took the prize, being hard pressed by Derby Lass and Black Robert. Results:

Trotting, 2:19 class, purse \$1200, best two in heats three (unfinished from Monday); Dorothea won third and

"THE ACADEMIE DE MEDECINE DE FRANCE

HAS PLACED

Apollinaris

("THE QUEEN OF TABLE WATERS.")

Examined for Purity and Freedom
from Disease Germs.

fourth heats; time, 2:12½, 2:17½. Temper won second heat in 2:12½ and was second. Excell third. Grand Baron, distanced in second heat, won first heat in 2:12½. Pug, Althe King, Pamlico Chief, Hazel Ridge, Shadland, and Buckeye also started.

Pacing, 2:19 class, purse \$2000, best three in five. Bob J. Lissimmons won third, fourth and fifth heats; time, 2:11, 2:19, 2:14½. Ceney won first and second heats and was second; time, 2:13½, 2:19. Wandering Jew, third. Clement Clemons, Boy, Sam Medium, Shad, Old Betty, and Claude won, respectively. Black Robert, Oliver, Big Mule also started.

The 2:23 class, trotting, purse \$3000, best three in five: The Queen won first, second and third heats; time 2:13½, 2:12 and 2:14½. Royal Baron won third and fourth heats and was second; time 2:11, 2:19. Amise, third. Little Shot, Lady Geraldine, Belespriet, Bertha Lee and Ed Winter also started.

The 2:19 class, pacing, purse \$1000, best two in three: Merriment won first and third heats; time 2:13½, 2:17½. Derby Lass won second heat in 2:17½ and was second. Black Robert, third. Princess Pluck, Sagwa, Frasskett, Parson, Lass, Hopperback, Kerolite, Fitzhugh Lee, David Harum and Bertha Herr also started.

LOTS OF EXCITEMENT.

Saratoga Track Record Equalled and a Bookie Arrested.

ASSOCIATED PRESS NIGHT REPORT.

SARATOGA (N. Y.) July 26.—The heavy showers of last night had little or no effect on the Saratoga track today and the time was good. Swiftly captured the fourth purse in 1:48, which equals the track record. Voter's victory at even money hit the ring hard, and Garden Smith, who has been reading a book at Brighton, packed his little grip and headed for the gate. He was just as busy, but the men on his books were compelled to be satisfied with getting their money back. Later Smith was locked up on a charge of grand larceny.

The stewards announced that Jockey Jeffries and W. McCarthy, who were suspended until the end of the meeting at Brighton would not be allowed to ride at Saratoga until after that time.

Five furlongs: Voter won, Tolusa second. Sandres third; time 1:01.

One mile: Cantadas won, Cathedral second. Saka third; time 1:43.

Five furlongs: Kings Courier won, It-truchio second. Matchim third; time 1:01½.

One mile and a sixteenth: Swiftimas won, St. Cloud second. Filon d'Or third; time 1:48.

Five furlongs: Dangerous Maid won, Indian Fairy second; time 1:15.

Full course, steeplechase: Aragon won, Douslerswivel second. Last Fellow third; time 4:42.

WINDSOR'S SPORT OF KINGS.

DETROIT, July 26.—The weather was fair and the track fast at Windsor.

Five and a half furlongs: Dumbarton won, Corals second. The Light third; time 1:07½.

Five furlongs: Isabinda won, Aurora second. Owensboro third; time 1:01½.

One mile and one-sixteenth: Foneda won, Daily Report second. Grumble third; time 0:49.

Six furlongs: Red Snapper won, Lovelace second. Torrean third; time 1:15.

Full course, steeplechase: Aragon won, Douslerswivel second. Last Fellow third; time 4:42.

SURREY'S SCORE HIGHER.

LONDON, July 26.—In the match game of cricket today the Australians were all out for the second innings with 193 runs. The total number of runs made by the Australians was 359, while the Surrey eleven scored a total of 462.

STEWART'S PLAN.

YALE and HARVARD ATHLETES ARE HAVING A GOOD TIME.

ASSOCIATED PRESS DAY REPORT.

LONDON, July 26.—[By Atlanta Call.]

WASHINGTON, July 26.—[By Senator of Nevada] The members of the Yale-Harvard athletic team were entertained at a garden party by W. H. Grefen, M.P., at Tapewell Court, on the Thames, one of the most charming country houses in England. Tonight the athletes will attend the performance of "Pinafore" at the Savoy.

Friday G. C. Vassall of the Oxford-Cambridge team, will conduct the Americans in Oxford. The company who were suspended until the end of the meeting at Brighton would not be allowed to ride at Saratoga until after that time.

Five furlongs: Voter won, Tolusa second. Sandres third; time 1:01.

One mile: Cantadas won, Cathedral second. Saka third; time 1:43.

Five furlongs: Kings Courier won, It-truchio second. Matchim third; time 1:01½.

One mile and a sixteenth: Swiftimas won, St. Cloud second. Filon d'Or third; time 1:48.

Five furlongs: Dangerous Maid won, Indian Fairy second; time 1:15.

Full course, steeplechase: Aragon won, Douslerswivel second. Last Fellow third; time 4:42.

YACHT RACE POSTPONED.

COLUMBIA-DEFENDER MATCH WILL COME OFF NEXT WEEK.

ASSOCIATED PRESS DAY REPORT.

NEWPORT (R. I.) July 26.—It was announced today by the Racing Committee that the committee has been obliged to abandon the race arranged for Saturday between the Columbia and the Defender, owing to the fact that the Defender's steel mast will not be ready in time. The race will be sailed next week, but the committee has not yet been able to determine the date.

JOCKEY SULLIVAN SUSPENDED.

NEW YORK, July 26.—Sullivan was suspended today for the balance of the Brighton meeting for foul riding on Belle of Erin in the third race. Results:

Five furlongs: Frolinghuyse won, Miss Dede second. Fohm third; time 1:04 1-5.

Six furlongs: Saccharine won, Exist second. Suphie third; time 1:17 2-5.

Five and a half furlongs: Meehanus won, Theodora second. Buffoon third; time 1:10 2-5.

Five and a half furlongs: Merry Prince won, Blue Away second. The Devil third; time 1:57 1-5.

One mile: Greyfeld won, Bishop Read second. Strand second. Strangest third; time 1:42 1-5.

Mile and a half, hurdle: Howard Mann won. Dutch Skater second. Pruner third; time 2:52 3-5.

ST. LOUIS RESULTS.

ST. LOUIS, July 26.—The track was

reopened after a close finish in the first with Edward S. Arbuskian, who had been played as a winner in this event.

There was a big field and lot of interest in the 2:27 trot and Merriment, after a bad finish in the second heat, took the prize, being hard pressed by Derby Lass and Black Robert. Results:

Trotting, 2:19 class, purse \$1200, best two in heats three (unfinished from Monday); Dorothea won third and

Six furlongs, selling: Our Nellie won, Chenille second. Annie Oldfield third; time 1:15 1-5.

Maiden, three-year-olds, six furlongs: Vilmar won, John Conset second, Thisbie third; time 1:15 1-5.

Handicap, three-year-olds, five and a half furlongs: Miss Mae Day won, Lulu Cunnon second. Sue Johnson third; time 1:09 1-5.

"She's Such a Good Cook."

While calling on Mrs. Jones the other day, Mrs. Brown said: "I always like to visit Mrs. Smith. She's such a good cook. Everything she cooks tastes so nice. When I asked her why it was, she told me she always uses

Cottolene

for shortening and frying. That it is better than butter or lard, and also more economical, because you can use it again and again for frying, while for shortening it takes one-third less. I'm going to try Cottolene." "So am I," said Mrs. Jones, and it will not be long before their friends will be saying of each of them, "She's such a good cook!"

The genuine Cottolene is sold only in the original yellow tins with our trade marks on them. It is not sold in cans and steel head in cotton-plant boxes, or in any other way. Made only by

Acting Clerk.

Her Husband's Story

"My name is E. J. Sprong, and my address is 16 Bondman Block, Troy, N. Y. I want to tell how thankful I am that my wife's health has been restored to her. About a year ago she caught a dreadful cold, which settled in her bronchial tubes and lungs. She certainly had bronchitis, and I think consumption, too, and we despaired of her life. She had a tightness and soreness in the chest, and it was difficult for her to breathe. There were darting, sharp and heavy pains, with constant coughing and expectorating. Each day she was worse than the day before. I was advised to get Acker's English Remedy, and did so, but my wife only shook her head and said: 'Another dollar thrown away.' She took the Remedy, however, and said the effect was magical. In less than an hour there was a remarkable change. She got better at once, and in a short time she was entirely well and strong again. The cure was permanent and there has been no relapse. I don't know what Acker's English Remedy is made of, but I am sure it contains something that fortifies the system against future attacks. My wife is in better general health now than ever, and you can't imagine how happy she is for her recovery. She tells everybody about Acker's English Remedy, and so I, for I believe it to be our duty to the public to help every sufferer who has throat and lung troubles. My neighbors say it is a sure specific for croup, and has saved the lives of hundreds of little ones around in this vicinity alone."

Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s. 2d., 2s., 3d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

THE PHILADELPHIA EXPOSITION.

It becomes more and more evident that a great mistake was made when the bill empowering boards of supervisors to contribute to the amount of \$10,000 per annum for exhibition purposes was not allowed to become a law. While citizens of Southern California are very liberal in their contributions to such purposes, it is not reasonable to expect the comparatively small number who make such contributions to bear the whole expense for an enterprise which redounds to the benefit of all.

Further reports received from Philadelphia show that the National Export Exposition, to be held there from September to November, will be one of the most important affairs of the kind ever held in the United States, and will offer an exceptionally fine opportunity for a display of California products. The object of the exposition is twofold. First, to show American products to foreigners, and, secondly, to make American manufacturers acquainted with foreign products and producers. The American government has taken an active interest in the enterprise, invitations having been sent to representative men all over the world, and an immense collection of samples and models of foreign products have been gathered, though not come into conflict, despite the decision of the diplomats.

THE BOUNDARY DISPUTE.

The friction that is on between Canada and the United States regarding a bit of frost-bitten territory in the far North, and the insignificant seaport at Pyramid Harbor, will doubtless be removed in due time, and wholly without a gun play. So far as appears, both parties to the controversy would be quite willing to arbitrate, "if," but each wants to be sure that the arbitration will go in one particular way, in order that the hardy pioneers on the disputed strip and stretch of water may not come into conflict, despite the decision of the diplomats.

While this is to be purely and wholly an American affair, it will be no means lack variety. One of the features of the exposition will be a collection of American villages, representing life in New England, Georgia, on the western plains, and in the Rockies. There will be a village in Cuba, another depicting life in Porto Rico, still another portraying all that is homelike about the hamlets of Hawaii, and the last, but not least, a "rice village" from the distant Philippines, with Filipino men and women, girls and boys, just as they appear in their native country.

The tobacco-growers of Cuba will send large quantities of the best tobacco to the exposition grounds, where it will be manufactured into cigars and cigarettes by Cuban girls, the manufactured article being given away for the purpose of advertising the Cuban tobacco industry. Porto Rico coffee-growers will have a pavilion and give away cups of coffee.

Southern California, which has benefited so greatly by displays in previous expositions, cannot afford to be absent from an affair of this kind. As usual, we may expect that the Chamber of Commerce will take up this matter with its well-known energy, and see that Los Angeles county, at least, is properly represented at the Philadelphia show.

They are trying to find a new name for Poor Lo, and one anthropological expert who thinks the term "American Indian" too long, suggests "American." We suspected that the friend who wanted the United States of North America called "Usona" would find an imitator, and here he is as large as life and twice as natural. Now the proper way to shorten is to shorten, therefore let "Lo" go for the fiery untamed red man and "Us" for this great country, and then the next presumption cuss who comes along and wants to shorten things up won't have anything to work on. A second to the motion is in order.

Much of the howling that is being done these days is intended to stop recruiting of the new regiments, but it will ingloriously fail of its object. The new army will be raised, it will be sent to the front, the Filipino rebellion will be suppressed, and the Philippine Islands will be given a good and stable government. The "aunties" may yowl and howl and paw the ground, but the nation is not going back, it is not going to stand still; it is going straight ahead.

NOT SO EASY.

The latest and most stupendous of all the trust propositions that have yet been advanced is that which proposes to combine all the railroads of the country in one immense organization, concerning which project an article from a New York paper was reproduced in THE TIMES of Sunday last. This suggestion has attracted renewed attention to the question of these great financial combinations and a contribution to the discussion of the subject, which recently appeared in the United States Investor is of interest. The writer of this article points out that there is one feature of the trust movement that has not been touched upon at length, although it is an important one. As the Investor shows, the promoters of these trusts may find that they have run up against a snag, in the shape of human limitations to the successful management of such gigantic enterprises. The Investor says:

"Assuming that the various trusts are honestly capitalized—which, as a rule, is not the case—it nevertheless remains a fact that their success is an entirely problematical affair. And the principal reason for this assertion is that no allowance appears to have been made by the trust promoters for the limitations of the human mind in the conduct of industrial enterprises. It is an easy task to consolidate capitalizations, until the aggregate reaches an unheard-of figure. It is not difficult to join under one management competing mills and factories until the total plant becomes more extensive than the world had ever expected to see. It is quite another matter, however, to make so easy a one-to-one conduct of the business as to make these plants justify the prices paid for them, and to earn a fair return on the money paid for the watered capital stock of the trust."

ADVANTAGES OF EARTHQUAKES.

When the yellow papers of Sunday next arrive in Los Angeles from New York, we may expect to see a vivid and graphic description of the havoc worked by the recent earthquakes in Southern California. There will, doubtless, be some full-page illustrations, in lurid colors, depicting tall buildings tottering to the ground, and pedestrians flying to cellars for refuge. It is not likely that the sensational eastern press will miss this splendid opportunity to kill two birds with one stone—originating another sensation, and casting a few rocks at Southern California at the same time. However, we of Southern California are becoming used to this sort of thing, and regard such publications much in the same light as some variety actresses do the reports of new scandals implicating them, in which they see valuable free advertising.

In this connection, it is interesting to note that in this fortunate section even an earthquake—if such mild oscillations of the earth's crust may properly be called by such a name—results in actual benefit. It is announced from the San Bernardino section since the shakes that flow of water in wells around there has been largely increased, in one case to the extent of over one hundred inches. Thus, the water supply, which in some places was becoming a serious question, is now ample, thanks to the little jolting which mother nature gave this favored section of the country, just at the right time.

Nor is the benefit confined to the water-supply. The San Bernardino correspondent of THE TIMES mentioned in yesterday's paper that hundreds of prospectors had gone up into the mountains to look for new mineral deposits, on the theory that the earthquake has uncovered new ledges. The section around Old Baldy has always held out good promises to the miner, but few valuable locations have been made. Now that acres of rocky surface have been shifted down the mountain side, leaving ledges exposed, miners believe that they will be able to make some valuable locations.

Surely, we have reason to congratulate ourselves on living in a section where even an earthquake brings with it advantages, in the shape of increased water supply and a new mining district.

These wise and patriotic words were written by Gen. "Joe" Wheeler while in San Francisco: "All true Americans regret that peace was not maintained in Luzon, but they fully realize that the conflict must be terminated without a shadow upon the prestige of our soldiers and sailors have so gloriously won. I regret that any Americans tolerate the thought of our government yielding to Aguilano. It is our highest duty to restore order in the Philippines. It is a duty we owe to the world, to the vast body of people in those islands who desire the benefit of our protection, and it is also a duty we owe to ourselves." It is beyond comprehension that there should be Americans to dispute so plain a proposition and to make our task in the Philippines harder than it otherwise would be, by giving aid and comfort to the enemy. We want more "Joe" Wheeler's in America and fewer E. Aguilano Atkinsons.

Some weeks since Gov. Murphy of Arizona issued a public warning to investors to beware of certain wildcat mining schemes that are being exploited in that Territory, thereby gaining the thanks of the people and the executions of the sharers simultaneously, and showing that the Governor has a good quality of nerve and backbone. The wildcat mining scheme has been the curse of the States and Territories in which gold, silver, copper and other minerals are produced, and California has had its full share of these bastard enterprises, to the detriment of those of a legitimate character, and to great damage to the general interests of the State. There is little doubt that Gov. Murphy's warning will have a salutary effect on the general run of schemers who may have

been hoping to bungle the innocent public with fake mining shares.

The Chicago Times-Herald ventures the following highly important scrap of news: "A Massachusetts girl who is worth \$2,000,000 has married the family coachman. Her friends are consoling themselves with the thought that she might have married an anti-imperialist." We doubt the accuracy of this latter statement. No genuine Yankee girl would ever be caught marrying one of those Aguilanoites, and we are reliably informed that those women who were thus harnessed before the Atkinson disease broke out are looking into the divorce laws to see if there isn't some way they can ungrapple.

The San Jose Mercury calls attention to the fact that the yellow New York Journal is to have a genuine competitor, as the convicts of Sing Sing have started a paper of their own. We fear that the able journalists in stripes will be unable to compete successfully owing to the fact that there are limitations upon their enterprise that Willie Hearst does not have to contend with. The grapevine telegraph stops at the walls of the State's prison and "Jim" Creelman is still at large.

Those people who are making remarks about the position of Col. Ingalls on the other shore should not lose sight of the fact that the great agnostic knows more about it than the wisest man that lives on the face of the earth, and if he is able to observe the goings on here, from his vantage point there must be much in it to convince him that Puck was right when he went on record as saying, "What fools these mortals be."

Tuesday, July 25, 1899, appears to be the liveliest gala day for the lynching of negroes that the Sunny South has had for some time past. Events of that kind were in evidence in Georgia, Texas and Mississippi, and in the first named State they occurred at widely different points. The anti-lynching society has certainly been given abundant food for thought and discussion.

Kotzebue Sound appears to be another San Roque, only more so. The frost and scurvy attachments for which Kotzebue is famous make the warm and waterless San Roque region resemble a miner's paradise, and that both are excellent places to stay away from, seems to be so clear that even a man with the gold fever ought to be able to catch the idea.

Sam Jones, the mountebank sky pilot, has arrived, yawped and been paid his price, therefore it is to be hoped that he will move on without any more delay than is absolutely necessary. Meanwhile the place which this狂妄的 pupille moves to has our profound commiseration and sympathy.

Kentucky has a brand of Democrats who are opposed to Goebelism, and they will hold a convention at Lexington on August 2. It appears to be quite clear that the Howards and Bakers are to have competitors in the little art of raising merry hades in "our old Kentucky home."

The casualty list of the Fourth of July is estimated as follows: Killed 33, seriously wounded 1962, slightly injured 3000. If we had a few more holidays like the Glorious Fourth, Aguilano could win out by sitting still and letting nature take its course.

The Chicago papers are gloating over the fact that their city directory contains 163,000 more names than any other book in the world. The wonder is now what city directory the names were copied from, but we venture to say it wasn't St. Louis.

As Count Esterhazy has had several months in which to think up a new story, we are likely to be afforded something picturesque in the way of testimony when the premier provocateur gets on the stand at Rennes.

Goebel promises that if elected Governor of Kentucky he will spend all his time in fighting railroads, but it would seem as if he might first employ himself to good advantage in fighting the Bakers and Howards a few lively rounds.

Aguilano, having been unable to establish a dictatorship by force of arms, certainly cannot hope to succeed without the aid of round robins, particularly as the robins cannot shoot anything more deadly than paper wads.

Sir Wilfrid Laurier says he used the word war "merely by way of emphasis." We are glad he didn't mean it, for it is not a pretty word to use to a proud people with a hope of making headway with them.

Considering the deadly character of the Fourth of July bomb and the toy pistol, it might be well to arm our troops with these weapons and thus do the Filipinos up "right quick" after the end of the rainy season.

The suggestion has been made that a closed season for the round robin might be a wise provision of our government in the Philippines. The matter is at least worthy of serious and prayerful consideration.

A Kentucky paper says there is "talk in the central part of the State of Boreling for Senator." It is needless to remark, perhaps, that enough candidates can be found on the surface in most States.

It seems that President Kruger's resignation had a string to it, and "Oom" Paul has pulled the string.

Brazil is going to send \$50,000 worth of snakes to the Paris Exposition.

tion. We announce this thus early in order that visitors from Kentucky may not think that something has happened to them.

It is quite likely that the newspaper men in Luzon are far more anxious to win glory for themselves than to see Maj.-Gen. Otis achieve success over the Filipinos. Hence those tears and that round robin.

It does not seem to have occurred to the police of Chicago that the woman who wanted to clothe the Nymph fountain in that city was a perfectly sane and normal visitor from Boston.

It is perhaps permissible to remark that in the emancipation of Negroes Uncle Sam is right in line with the precedent he established some thirty or forty years ago.

Poet Markham overlooks the fact that "The Man With the Hoe" is aiding a cultivator these days and ripening the weeds out of the corn by wholesale.

We are promised a compressed-air trust, and if it goes the investor will probably be left as heretofore, bemoaning the weeds out of the corn by wholesale.

A. Mr. Cook, Democratic manager in Missouri, says that "Democrats have the right to think." Sure, but how about the ability.

The song of the "auntie": "When the round robin nests again."

Ex-Gov. Boles of Iowa is among the "also spoke."

The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, July 25.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 29.92; at 6 p.m., 29.87. Thermometer for the corresponding hours showed 89 deg. and 72 deg. Relative humidity, 5 a.m., 89 per cent; 5 p.m., 57 per cent. Wind, 5 a.m., calm; 5 p.m., southwest, velocity, 8 miles. Maximum temperature, 82 deg.; minimum temperature, 57 deg. Barometric pressure, 29.86.

DRY BULB TEMPERATURE.

Los Angeles 83 San Francisco 54
San Diego 64 Portland 68

Weather Conditions—Cloudy mornings continue on the California coast south of Point Reyes, with moderate temperature. It is clear in the interior valleys. Clear, warmer weather prevails on the North Pacific Slope. It is cooler in the mountain regions, where rain has fallen since last report. Rain has fallen in Arizona, and a thunder shower occurred during the night at Winnemucca.

Forecasts—Local forecast for Los Angeles and vicinity: Fair, slightly warmer, with rain tonight and Thursday, north to west winds.

SAN FRANCISCO, July 26.—Weather conditions and general forecast: The following maximum temperatures are reported from stations in California today:

Eureka 88 San Diego 70
Fresno 82 Santa Barbara 88
Los Angeles 82 Independence 84
Red Bluff 88 Yuma 108
San Luis Obispo. 76

San Francisco data: Maximum temperature, 86 deg.; minimum, 62 deg.; mean, 56 deg.

Cloudy weather prevails over the Pacific Coast States, while the weather is partly cloudy over the Rocky Mountain region and in Northern Arizona. Light showers and thunderstorms are reported from the latter region. The pressure has changed but little during the past twenty-four hours, except a slight fall over Northern Washington. The temperature has fallen slightly over the plateau region and is favorable elsewhere. Conditions are favorable for generally fair weather in California Thursday, except cloudy or foggy along the coast in the morning.

Forecast made at San Francisco for thirty hours, ending at midnight, July 27:

Northern California: Fair Thursday, except partly cloudy or foggy along the coast in the morning; fresh western wind.

Southern California: Fair Thursday, except partly cloudy or foggy along the coast in the morning; fresh western wind.

Arizona: Partly cloudy Thursday, probably with thunderstorms in the mountains of the northern portion.

San Francisco and vicinity: Fair Thursday, except partly cloudy in the morning; fresh west wind.

The Times' Weather Record—Observations made at 1 p.m. and midnight daily.

ALL ALONG THE LINE.

Santa Barbara shifts her peg up several points with a brand new crew fish cannery, and the business community of the whole south Coast says: "Good for Santa Barbara." Thus, one by one, do divers and sundry moss-back idealists receive a black eye from the merciless iconoclast Progress. The renaissance of business undertakings and the side-tracking of hoary picturesqueness are two determinate steps which must place the beautiful channel city in her rightful place in the commercial world. Memories and emotions are fine things as "trimmings," but in this business age they "cut no ice."

Of the many hidden blessings to fruit-growers brought to light by the dry season, none is greater than the visit of the chief hydrographer of the United States Geological Survey, and his action toward perfecting a survey of the watersheds with a view of locating possible water-bearing gravel beds. This is beginning in proper fashion, and it is safe to say that no possible act of the Federal authorities could give more general satisfaction in this territory. Our plucky ranchers will then have some trustworthy data to guide them in investments for well-being, and be reasonably certain of success.

Long Beach is to be congratulated on the fact that a jury did actually find a foul-mouthed and obscene black-guard, who voided his vocal filth in public, guilty of disturbing the peace, though it required three trials to bring the full jury to time. Only four of them held out, and this fair gladdens the hearts of the law-and-order people. It is now in order for hack men, hotel-runners and others in citing the attractions of the town to visitors, to give the osseous frame of the whale a rest, and trot out instead the only simon-pure jury that ever found a verdict of guilty in the town of Long Beach.

The ponderous and clumsy automata to come all the way from France and Atlantic seaports to be revolutionized by a Pacific Coast genius, John Leck of Santa Ana is building a perfect machine to weigh complete, in running order, but 125 pounds. But for the fact that so many good things have come from Orange county, the extreme light weight of this promised machine would weaken faith in it. The records and all precedents show, however, that if Santa Ana undertakes to do a certain thing, that thing will be successfully done. It would be a sarcastic pleasure to ship "autos" to "Noo Yauk" and "Urap" in carload lots.

They have caught a specimen of what is called the Pacific chimera, and lodged it in the aquarium at Avalon. There is room for objection to the definite article in the foregoing sentence. There are several other chimeras they might lasso, and convey them in that tank, or in soak somewhere, for instance: Dan Burns's Senatorial toga; Arnold's plurality in the recent election; the patriotism of the copper-head element on the Coast; the very large sum recently subscribed to the Democratic National Committee; Barlow's "business opportunities," the wind-stuffed "isshtoo" of anti-imperialism, and "the overwhelming majorities, sir, of the great Democratic party, sir, at the next election, big."

THE ASSOCIATED CHARITIES

Cooperates with all other charity workers. It is non-sectarian. It investigates all cases carefully. It needs no money. The membership fee is \$1.00. Room 10, Consolane. "And above all things have charity, for charity shall cover a multitude of sins."

Events in Society.

Communications intended for the society column of The Times must be signed, and must be on one only side of the page. Anonymous announcements of society events, personals, etc., and those which, because they are written on both sides of a page, have to be rewritten, will receive no attention.

Mrs. C. Charles Travers was the hostess of a reception given Monday evening at her home on Downey avenue in honor of Miss Anna Bragg. The house was artistically decorated throughout, with flowers and foliage, and the piazza was made inviting by divans and growing plants. Dancing was enjoyed, and later an informal musical programme, which included a piano solo by Miss Jessie Richie; Miss Frances Aylesworth played Moszkowski's "Serenade" on the violin; Mrs. Grace Henderson Mathewson sang selections from "Aida," and the "Gymn" Song from "Carmen." E. Harwood Travers presided at the piano. Miss Bragg left Tuesday morning for San Francisco, and after a short stay there, she will return to her home in the East.

Mr. and Mrs. George Drake Ruddy gave a dinner Thursday evening at their home in the hills in honor of Mrs. John Blackmer of Minneapolis, who is the guest of her sister, Mrs. Henderson Hayward. Covers were laid for eight.

NOTES AND PERSONALS.

Mrs. Clement Chase and children, Clement, Edwards, Carmelita and Philip Chase, of Omaha are visiting her parents, Col. and Mrs. Edwards, at No. 751 Hope street. Mrs. Chase, editor of the Omaha Excelsior, who came out with them, returns today.

Miss Bertha Worm and Miss Jenette Armstrong will leave August 2 to spend the remainder of the summer at Lake Tahoe.

Henry Myers and wife of Santa Barbara county are in the city.

Mr. and Mrs. G. A. Fudinikar have gone for the summer to their new cottage on Borg street, Santa Monica.

Dr. R. B. Emery sailed from San Francisco for Columbia yesterday to be gone three months.

Mr. Carrie Huff and Mr. and Mrs. Charles Huff, who have been guests of Dr. and Mrs. T. C. Donnall at No. 1003 Westlake avenue, went to Long Beach Tuesday, accompanied by their host and hostess.

Miss Anna Humble has gone East to visit friends and relatives.

Miss Alba Bennett is in Redlands visiting her friend, Mrs. J. F. Edwards.

Mr. and Mrs. O. P. Posey and Mrs. S. A. Van Giesen left for Coronado yesterday for an extended stay. Misses N. Houghton and Miss L. Houghton accompanied Mrs. Posey as her guests.

HARBOR WORK.

A New Center-dumping Barge for Handling Rock.

Work on the San Pedro Harbor is progressing favorably. A new center-dumping barge, with a capacity of 1500 tons, has been launched and it is expected that it will be ready for service in a few days. There are but two barges at work at present, and with these it has been impossible to transport the 2000 tons of rock per day as called for in the contract. At present about 2500 tons of rock per week are being dumped upon the breakwater site, but it is expected that in a very short time the full contract amount will be dumped every day.

Where the quarries are located, not far from the Island, the hill slope away from the water is at an angle of 45 degrees, and it was necessary for the contractors to blast out at least 100,000 tons of stone in order to level place of sufficient size for the machinery. This has retarded the work somewhat. During May 1500 tons of rock were dumped in San Pedro. June 4000 tons were added, and this month 8000 or 9000 tons will be dumped. At present there are about one hundred men employed in the work.

When N.E.A. Rates Expire.

Maj. George N. Nolan, superintendent of the business headquarters during the late N.E.A. convention, is in receipt of a communication from Santa Catalina Island asking if the excursion tickets to San Francisco can be issued as before. A wire letter, inclosed a clipping from The Times, in which Maj. Nolan states that visitors from the East need not hurry to their homes, as they do not need to be at their destination until September 4. For the information of tourists still in Southern California it is to be noted that the holders of the tickets issued in Oregon, Nevada, Utah, Arizona and New Mexico, and all points in the East need not be at their destination until September 4, 1899. The holders of tickets issued in California, north of Mojave, will be able to complete their trip by August 31. Tickets issued in California, south of Mojave, will not be good after the 31st of July.

Board of Trade.

The sixteenth annual report of the Los Angeles Board of Trade shows a flattering condition of business affairs in the city, and in those sections of Southern California from which a great part of the city trade comes. From the sources \$6,056,000 has been received by the board and after deducting all expenditures, a balance of \$360,54 remains in the hands of the treasurer. The report of the president announces the following favorable features in relation to the commercial condition of the country: the standard commercial failures, all year 1898, compared most favorably with that of 1897. Dun's Review shows that in California in 1897 failures numbered 653, with liabilities of \$4,336,124, and in 1898 failures numbered 638, with liabilities of \$3,057,306, a difference of \$1,298,818, or a decrease in 1898 of nearly 20 per cent.

THE PUBLIC SERVICE.] MAKING REDUCTIONS.

BOARD OF EQUALIZATION BUSY
WITH THE WORK.

Citation Issued Against the Los Angeles Street Railway Company.
Protest Against an Engine-house.

Dr. Walter R. Guin, the Eastern Dentist Charged With Bigamy, Still in Los Angeles and Fighting Extrication.

Bird Case Now With the Jury—A Pepper Tree and Three Damage Suits—Water Company Taxation Case.

The reductions in property assessments made yesterday by the City Board of Equalization amounted to \$29,005, as against \$9450 the day before. A number of applications were filed by large owners of property, but no action was taken upon them.

The Board of Equalization has cited the Los Angeles Railway Company to show cause why it should not be assessed \$25,000 in addition to its regular assessment because of its possession of a franchise for the distribution of electrical energy, both for lights and power. This franchise was overlooked when the assessment rolls were made up, and the attention of the board was called to it by the City Assessor.

City Tax Collector White has filed his annual report of tax collections in the City Clerk's office. The report shows that a delinquency of less than \$16,000 was left from last year's taxes. Property-owners on Winfield street do not want one of the new engine-houses located there. They have filed a protest with the Board of Fire Commissioners, which a committee of the board will take before the Board of Public Works.

The Society for the Prevention of Cruelty to Animals has demanded of the city the \$100 imposed upon two persons who were prosecuted by that organization for cruelty. The law provides that such fines shall be turned over to the society.

Dr. Walter R. Guin, a dentist of Fall River, Mass., who is wanted in Massachusetts and Maine to answer to a charge of bigamy, was arrested in this city Tuesday afternoon. The Boston authorities on the point of leaving him for the East, when he petitioned for habeas corpus. The matter was to have been heard yesterday, but was of necessity continued until today at 10 o'clock a.m. in Department One.

Ethel White, a dusky Pomona belle, was yesterday found guilty of robbing a Swede of \$10 on May 26 in the tenderloin district of this city.

The application of the county for an order of court directing Frank Gibson, receiver of the moneys of the Los Angeles Water Company, to pay \$1845 taxes, was heard in chambers before Judge Campbell yesterday afternoon.

Arguments will be submitted on briefs.

The peculiar suit of Henri Appelman against J. Marion Brooks, praying that the attorney be compelled to disgorge certain funds alleged to belong to Appelman, was dismissed without prejudice in the Township Court yesterday.

[AT THE CITY HALL.]
REDUCTIONS ASKED.

MANY APPLICATIONS BEFORE THE BOARD OF EQUALIZATION.

Los Angeles Railway May Have to Pay Taxes on Two Franchises. Property-owners Object to an Engine-house—Tax Collections.

The work of the City Board of Equalization yesterday was the most difficult of any session since the daily meeting began. More than sixty applications for reductions of tax assessments were considered, and a greater number of them were granted than on any other single day of the board's work. Several applications of more than ordinary importance were filed, but the board has decided to take up the applications for large reductions later in the week, or possibly as late as next week.

One of the most important actions taken by the board since its sessions began was taken yesterday morning when a citation was issued direct to the Los Angeles Railway Company and showed that no remedy exists why an assessment of \$25,000 should not be made against its franchise for furnishing electrical power and lights. This particular franchise was overlooked in making up the assessment rolls, and this fact was brought to the notice of the board by City Assessor Ward. The company is said to do a large electrical business in addition to that of operating a street railway system, and even if it does no business it has the authority under its franchise to make that kind of business a source of revenue. The hearing will take place later in the week, probably on Saturday.

The Los Angeles Electric Company filed an application for a reduction of the assessment of its franchise from \$20,000 to \$5000. A representative of the company argued that the assessment asked for is no higher than when the company was alone in the electrical field, and that the practical result of all that kind of business now, however, other companies have entered the field, and as a result of competition the franchise is not as valuable as it once was, and therefore it should not be taxed in the amount that would result from the present assessment. The application was taken under advisement by the board.

Attorney W. E. Dunn, representing the Bradbury estate, applied for a reduction of the assessment on the Bradbury Building at Third and Broadway, from \$210,000 to an amount more in proportion to the fact that other large business blocks have been erected. It is probable that this reduction will be granted, or that the assessment will be somewhat lowered. The Laughlin Block across the street from the Bradbury Building is assessed at \$140,000, and the Byrne Block at \$67,500. The assessment on the well-known blocks are: Wilcox, \$91,500; Douglas, \$130,000; Stimson, \$185,000; Bryson, \$70,000. The Bradbury Building is assessed higher than any other block in the city.

Application was made for a reduction from \$70,000 to \$60,000 of the assessment on the Bradbury Building at Second and Spring streets. The application was made in separate petitions respectively filed by John Bryson, Sr. and Evaline Bryson, each of whom owns an undivided half interest in the property. The matter was taken under advisement.

The work of the board yesterday consisted chiefly of the consideration

of applications for reductions under \$100, and many of these were granted. Some of them were due to double and erroneous assessments, all such cases being pointed out by the City Assessor himself.

The total reductions for the day amounted to \$29,005. This is a much greater reduction than that of the day before, which was only \$945.

WANT NO ENGINE-HOUSE.

Property-owners Protest Against One on Winfield Street.

The proceedings of the Board of Fire Commissioners, which are usually of a very commonplace character, were enlivened yesterday by the presentation of a protest against the proposed location of one of the new engine-houses on Winfield street and on the subject given that protest by a woman who owns property on that street. The present trouble dates back to the time when all of the proposed engine-houses were purchased. For that particular district a site was bought near Eleventh and Valencia streets, but the owners of property in that neighborhood protested vigorously that at their suggestion, the Council ordered the sale of the lot already purchased, the property-owners agreeing to secure for the city for the same price as was paid for the first lot, another site equally as good for the city's purpose. The second site selected is on Winfield street, between Eleventh and Eleventh streets, running west from Figueroa street. The purchase of this site and the establishment there of one of the new engine-houses is about to be completed, and again the property-owners have protested. Yesterday morning the following protest, signed by nearly fifty residents of that neighborhood, was filed with the Board of Fire Commissioners:

"We, the undersigned, do not want a fire-engine house located on Winfield street for the reason that the street is not wide enough and is a short street. It endangers the lives of many little children who are in attendance at school. The lot is not one selected by the fire board as per advertisement, and the Council did not advertise so that we could protest. It depreciates the value of property. The lot is not large enough for an engine-house, being only 50 by 122 feet, and that gives no room for the men and apparatus to work to west of Hoover street.

Mrs. F. J. Fischer appeared to support this protest, and she made a strong speech against the board's taking action which would result in the retention of this site by the city. She said that the property-owners had a chance to protest in time before the City Council, and that it was an underhanded ploy of the Council to have the fire board select the site by the fire board as per advertisement, and the Council did not advertise so that we could protest. It depreciates the value of property. The lot is not large enough for an engine-house, being only 50 by 122 feet, and that gives no room for the men and apparatus to work to west of Hoover street.

WILL MEET TODAY.

A meeting of the Water Supply Committee of the City Council will be held today for the purpose of making some agreement with the Los Angeles City Water Company, by which the necessary extensions in the waterworks system can be made. This meeting was to have been held yesterday, but the members were too busily engaged in the work of the Board of Equalization, and the City Attorney was busy all day in court.

WHO IS RESPONSIBLE?

For more than a week a dangerous hole has existed in the street near the corner of Hoover and Adams streets, caused by the breaking of the pipe through which the zanja water is carried. On Winfield street, on the south side of Adams, Washburnen, in the neighborhood covered the hole with large stones, but they fell into the hole later, leaving it as dangerous as before. The matter was repeatedly reported at the City Hall, but owing to the difficulty of making a connection, there was much delay in making the repairs. The matter was first reported to the Street Department, but when it was found that the hole was caused by a broken zanja, that department informed the Water Overseer of it, the water department having no control or authority over the zanja system, and that because that would stop up the zanja. Only one person west of that corner uses this zanja, and unless he is willing to stand the expense of repairing the hole will be ordered filled today, thus shutting off the supply of water west of Hoover street.

BIRD TRIAL ENDED.

The Bird forgery trial, which has been on in Department One for almost three weeks, will probably close today. Deputy District Attorney McComas concluded his argument to the jury for the prosecution just at noon yesterday. Immediately upon convening court in the afternoon, Judge McComas gave his instructions to the jury. They were seated and only occupied about twenty minutes. The jury then retired and were out all afternoon and evening without reaching a verdict. At about 11 o'clock they were locked up for the night, but by 10 o'clock this morning it is hoped they can agree.

DR. GUIN OF MASSACHUSETTS STILL IN THIS CITY.

APPELLEN VS. BROOKS.

Hearing on His Petition for a Writ of Habeas Corpus Continued to This Morning—Removal from the State Strongly Contested.

There was a flurry of excitement in Department One yesterday, when Dr. Walter R. Guin of Fall River, Mass., was brought into the courtroom preparatory to a hearing on his petition for a writ of habeas corpus. Owing to a pressure of other matters Judge Campbell was unable to proceed in the matter, and continued the hearing until this morning at 10 o'clock.

Dr. Guin is the man who is said to have been divorced from his first wife and to have secretly married the daughter of J. B. Lake, a wealthy citizen of Fall River. The law of Massachusetts prohibits remarriage within two years of the time a divorce is granted. It is also sought to punish Guin for his alleged evasion of that law and for his alleged conduct with Miss Lake, whom it is said, he married in the State of Maine on June 24. The couple, after their marriage, went to Montreal, whence they took passage to San Francisco, in Santa Barbara county, where Guin was engaged on telegraphic advices and lodged in the Santa Barbara jail for three days. He was then released on \$2000 bail.

After his release, he came with his bride to this city. Their movements were watched, and when William H. Medin, of the Fall River police, and M. G. B. Swift, attorney for the girl's father, arrived in the city Sunday with a requisition for Guin, they knew just where to find him. He was placed under arrest Tuesday afternoon and permitted to stand at Hotel Van Nuys prior to leaving for San Francisco on the evening, en route east. At that juncture his corpus proceedings were instituted, and it is now proposed to fight Guin's removal from the State. Guin is represented by W. J. Hunsaker, Esq., who has associated J. J. Boyce of Santa Barbara.

Mrs. Guin, who is said to be only 19 years of age, was in the courtroom yesterday and is standing bravely by the doctor. She is said to have become infatuated with her husband, who is a dentist, during the time that he was rendering her professional service. She took keen interest in yesterday's proceedings.

ONE YEAR'S TAXES.

Annual Report of Collections for the Last Fiscal Year.

City Tax Collector White filed an annual report of the collections of city taxes for the year 1898-99 in the office of the City Clerk. The report shows that the office made an excellent record during the year. The first installment was collected last fall by John H. Gish, and the amount charged against the office for collection for the entire year was \$271,397.84. Tax Collector White took off last January, and has therefore collected the second installment and has made the collections of penalties and sold the property on which the taxes became delinquent to the city. The amount charged as 5 per cent. penalty was \$663.74, and the advertising charges were \$2707.50. Out of seventeen assessment rolls entered, the amount of the tax was \$69,64. Much of this amount was made up of sums collected, and not properly charged when the transfer of office took place, the error being discovered afterward. Other errors were made in computing the penalties, but these amounted to only a few cents. The assessable assessments amounted to \$75.81. The sums of property to the city for delinquent taxes reached the total of \$14,810.33. The total amount collected as shown by the Treasurer's receipts, was \$259,914.39. This leaves a balance of \$92.69 over and above all that was charged to the department.

ROBBED A SWEDE.

An Ethiopian Queen of the Demimonde Found Guilty.

Judge Trask's court was clouded with all kinds of blackness yesterday, owing to the trial of Ethel Wilson, a colored queen of the Ethiopian demimonde, charged with relieving an elderly Swede of \$10.17. Ethel has all along strenuously asserted that it is all a mistake, and so testified in a most vigorous way at her preliminary examination.

The Swede who is minus his money is Peter Yansen, a junkman claiming Riverside as his point of halting. He testified yesterday that on the evening

of the damaged roof. When the scaffolding from the library window had been built to the roof, and the materials for making repairs had been hoisted there, it was found that one of the pinnacles of the heavy decorative column at one corner of the top of the dormer window was ready to fall. The cement under it had been washed away, and it was simply standing on end without any fastening to it whatever. It had slipped around on its base to such an extent that if there had been another earthquake as strong as the fire, the whole would have fallen, the walls about 100 pounds, and what the result of its falling would be can be imagined. Another place where damage was done which had not been noticed before was where the heavy coping joints to the tiling of the roof. This was not fastened at all, but it had come from its position with great ease. A slight shock would have sent this mass to the street, possibly on the heads of passing pedestrians. The financial loss will be trivial, as it will cost only a few dollars to repair the broken places, and properly fasten the loosened material. All of the cracks in the interior walls of the building are to be repaired at once.

WHO IS RESPONSIBLE?

For more than a week a dangerous hole has existed in the street near the corner of Hoover and Adams streets, caused by the breaking of the pipe through which the zanja water is carried. On Winfield street, on the south side of Adams, Washburnen, in the neighborhood covered the hole with large stones, but they fell into the hole later, leaving it as dangerous as before. The matter was repeatedly reported at the City Hall, but owing to the difficulty of making a connection, there was much delay in making the repairs. The matter was first reported to the Street Department, but when it was found that the hole was caused by a broken zanja, that department informed the Water Overseer of it, the water department having no control or authority over the zanja system, and that because that would stop up the zanja. Only one person west of that corner uses this zanja, and unless he is willing to stand the expense of repairing the hole will be ordered filled today, thus shutting off the supply of water west of Hoover street.

WATER COMPANY TAXES.

Case to Be Submitted on Briefs—Recever's Compensation.

After several continuances and postponements the application of Los Angeles county for an order of court directing Frank Gibson, receiver of the Los Angeles Water Company, to pay the taxes assessed to the company for money in the receiver's hands on the first Monday in March, came up for final hearing before Judge Campbell, sitting in Department Two, yesterday afternoon. The matter was ordered submitted, to be argued on briefs.

BRAZOS FLOODS.

ORIGIN OF THE RAINS WHICH SET THE RIVER BOOMING.

Weather Bureau Experts Tell of the Damage Wrought, of the Plans for Relief and of the Strange Meteorological Circumstances of the Deluge.

The destructive floods of two weeks ago in the valley of the Brazos River in Texas are the subject of a special bulletin just issued by the United States Weather Bureau. The shaded map shows that the heavy rains which set the river to booming were confined to a comparatively small portion of the State. From June 27 to July 4 over sixteen inches of rain fell in the region between Brenham and Waco. At Turnersville ninety hours saw a downfall of thirty-three inches. The cause of these rains, purely local in character, is a deep mystery.

A great deal of important information concerning the floods is presented in condensed form in the report of I. M. Cline, director of the Texas section of the climate and crop service of the Weather Bureau, printed in the bulletin. His report says, in part:

"The floods in the valley of the Brazos River commenced on June 29 in Central Texas and passing out into the Gulf of Mexico between the 12th and 15th of July, 1899, has been in all respects the most destructive flood which that section, one of the most productive in Texas, has ever experienced."

The Brazos River, with its deep channel, has the capacity of carrying off a vast amount of water, and as a result destructive floods on this river are very rare. According to calculations published in a special bulletin of the Texas section, climate and crop service, the Brazos River discharges into the Gulf of Mexico on an average, annually, during the months of April, May, and June, 6,447,403,576 cubic yards of water. In this instance it has been required to carry off more than this amount of water in fifteen days.

"Phenomenally heavy rains fell on June 28 and 29 over the drainage basin of the Brazos River in the central portion of the State, and were followed by heavy rains for four or five days in succession. On June 29 all the tributaries of the Brazos River from McLennan county south to Brazos county were higher than they had ever been before, since that the records began. The water, with that of succeeding rains, had flooded the Brazos River, which inundated all low lands to a depth ranging from two to twelve feet. In places it is said that the river was more than twelve miles wide. The flood moved southward very slowly, and it was fourteen days from the time the crest of the flood was noted in Central Texas until it passed out into the Gulf of Mexico."

"The damage to crops has been very great. All crops on the immediate river bottoms from McLennan county south are a total loss. The land bordering on the Brazos River is the most productive in the State. There was a large acreage in cotton, corn, small grains, and other crops. The following are the counties which have suffered the greatest damage: McLennan, Falls, Robertson, Milam, Brazos, Burleson, Grimes, Washington, Waller, Austin, Fort Bend, and Brazoria. There has been a small acreage inundated in some other counties, but no great damage resulted outside of these. Cotton planters have suffered most. The loss of corn has been great, and besides the crop now growing there was a large amount of last year's crop yet in the bins which has been spoiled. Sugar cane plantations in the Brazos bottoms have suffered severely. About one-half the crop has been destroyed. The minor crops are also of considerable importance in some of these counties, and the loss of these represents a large sum. Farming implements, stock, and many of the small tenant-houses in the bottoms have been washed away. Houses left standing are many in number, but in a fit condition for use. The total losses, judging from press reports and other available information will aggregate nearly \$10,000,000. The number of people who are left without means of sustenance is very large. The towns which have suffered most are Calvert, Brookshire, Richmond, State Point, Columbia, and Brenham. While the water was well up in some of these towns no great damage resulted, except to small settlements in low parts of the surrounding country. There was much suffering during the early part of the flood from hunger and exposure. Notwithstanding the great suffering experienced as widely as possible, some of the sufferers were in tree tops and on houses for two or three days without food. Life-saving crews were organized at Galveston and other points, and sent with boats to aid the rescue. The government boats at Galveston were ordered to the assistance of the sufferers. The efficient work of the rescuers prevented many fatalities, and it now appears that the total number of casualties, as a result of the flood, will fall somewhere between forty and fifty."

"Action has already been taken by some farmers to plant other crops where cotton and corn have been destroyed. Some cotton will be planted, but to what extent cannot be even approximated. Efforts are being made to get the farmers in the flood district to plant a variety of crops. It is desired to make the district self-sustaining as soon as possible, and to have more intensive agriculture. The Brazos River country still has the best course to pursue."

Prof. H. A. Hazen of the Weather Bureau adds to the report meteorological information concerning the probable cause of the flood, in part, as follows:

"During the past twelve Junes rains of over 10 inches a month occurred nineteen times in Texas, or less than two each month. In the past June twelve stations reported over 10 inches in four days. One station, Turnersville, had over 33 inches, and Hearne over 30 inches. These stations are about 250 miles from the gulf, toward the northwest. The significant fact is that the heaviest rains were so far from the gulf. Point Isabel, on the gulf, reported no rain. It is also to be noted that of the 100 stations which have reported over 10 inches during the past twelve years, more than 80 per cent have been 10 miles or more from the gulf. The heaviest of these rains have occurred on rising land, ranging from 500 to 2000 feet above sea level, and this may be considered an important factor in their formation. Then being over 10 inches in the world, over 10 inches in a single month, occurs at Cherapunji, in India, on a hillside about four thousand feet above the sea."

"It is a remarkable fact that no serious disturbance of the atmosphere is indicated on the two daily maps. On the morning of June 27, a slight disturbance is noted between Corpus Christi and Galveston, with a southeast wind of thirty-six miles an hour at the latter station. Galveston reported 2.02 inches of rain in the previous twelve hours, but it is the only station that had rain. On the evening of the 27th Galveston had .08 and, but for .02 the next morning and .26 the evening of the 30th, there was no more rain at this station. At this time also (evening of the 27th) the winds all along the gulf were from the southwest, and the slight disturbance was wholly within the State. Throughout these heavy rains the wind at Palestine (the nearest station to the heaviest rains) continued steady from the northeast and at eight miles an

hour, except twelve miles on the even of the 27th. The total rainfall at Palestine was 7.42 inches. The lowest pressure noted was 29.74 inches, at Galveston, on the evening of the 26th, and at Palestine at the same moment it was 29.86 inches. It is a remarkable fact that the pressure rose steadily at and throughout this period, except for a slight fall on the evening of the 29th, which was due mostly to the regular diurnal range.

"In seeking for an explanation of such a very remarkable phenomenon, and so localized, we are forced to bearing in mind the condition of the atmospheric strata which can produce such a downpour. The onward advance of a high pressure from the north caused winds from a northerly direction, which, impinging upon those from the south or southwest, caused some of the rain, also the topographic maps have had some effect. It must be said that, after all the conditions, we still have a most serious difficulty in accounting for such rains, which are analogous to so-called cloudbursts, about which almost nothing is known."

RAILROAD RECORD.

A KNOTTY PROBLEM.

That New York Conference Takes Considerable Time.

The meeting of high traffic officials of the different roads which is going on in New York is taking a good deal of time. The Santa Fe is most interested in it, the Southern Pacific next, and then the Central Pacific, Union Pacific and the number of roads making connection with the Ogden gateway. This brings into play all the powerful influence of the Goulds and Vandenburgs.

The Santa Fe Pacific has shown a deficit in its annual statement in every year of its operation. For four years this has grown a little smaller in each statement. The California Southern usually shows a deficit. In the last four years there was a surplus of 10 per cent.

Hudyan will cure you, sound and well. Hudyan acts by strengthening and stimulating to per cent all the glands that are out of order. Hudyan increases the flow of the gastric juices, the intestinal juices, the bile, the pancreatic juice. Hudyan is a complete and positive cure for all forms of indigestion or dyspepsia. Since the stomach is the seat of all disease, the stomach will be out of order, Hudyan will promptly overcome indigestion, dyspepsia, flatulence, depression, sleepiness and irritability of temper.

Hudyan cures the disorders perfectly and permanently. If you are Hudyan, you will recommend it to your friends. Hudyan is a positive cure for all digestive disorders.

Hudyan is for sale by druggists—50¢ a package. Do not keep Hudyan.

If your druggist does not keep Hudyan, send direct to the Hudyan Remedy Co., Mrs. Stockton, Ellis and Market streets, San Francisco, Cal.

You may consult the Hudyan Doctors about your case free of charge. Write.

DEATH OF J. H. BROWN.

Survived His Injuries Over Fourteen Days, Then Succumbed.

J. H. Brown, the school teacher, who fired bullet into his brain early on the morning of July 12, died last night at the County Hospital.

When Brown shot himself he was taken to the Good Samaritan Hospital, where he was attended by Dr. Hagan. After recovering from the effect of the shock produced by his wound, he recovered and was released and was apparently on the road to recovery. His symptoms were so favorable, and he had so far recovered, that he was removed to the County Hospital yesterday morning, but at 5:30 o'clock last night he suddenly expired. Dr. Hagan was asked whether, in his opinion, the removal of the man was attending to his death, and he expressed a negative opinion. He said in all probability death resulted from a rupture of a blood vessel near the seat of the injury, which might have occurred at any time, causing a pressure on some of the vital parts of the brain.

The body was removed last night to Horwitz's undertaking parlors, where it is now being prepared for the funeral.

The Practice of Oriental Medicine.

In two parts. Treatises Nos. 4 and 5, (in all 208 pages) illustrated. Contain the substance of all previous publications by the company, and much that is new. Describes the new method for home use of the celebrated Oriental Herbal Remedies, with full directions. More than a hundred prescriptions, many of which are adapted to the cure of all diseases, whether acute or chronic. Valuable chapter on hygiene and diet.

It is employing the skill and knowledge of every man, be it his physician and may save sickness. The long list described in this book includes many simple, harmless, but very efficacious remedies, which are skillfully and tastily prepared. In permanent forms, are a complete series for home cure for all ordinary diseases.

This valuable publication given free to all who can read or write the FOO & WING HERB COMPANY, 908 S. Olive St., Los Angeles.

CRUSHED BETWEEN CARS.

Conductor Russell Killed While Performing His Duty.

The body of L. D. Russell, a Southern Pacific freight conductor, was brought to this city by the Owl train yesterday morning. Russell was killed at Rowan, small way station in Kern county, Tuesday night, by being crushed between two sections of a train which had had a change.

The train which was a mail-head, broke in two by the pulling out of a drawhead. While the conductor and brakemen were working between the sections to repair the break, the engineer of one section started his engine. Two sections were thus unexpectedly pulled together and Russell was caught between the cars. His body was almost cut in two, and he was dead in the twinkling of an eye.

The coroner of Kern county held an inquest, but the body was sent to the city for burial.

Russell had been in the employ of the Southern Pacific Company about twelve years, having been a conductor about seven years of that time. He was a member of the Order of Railway Conductors. He leaves a widow, who lives on North Avenue A, East Los Angeles. Undertaker Paul of the East Side has charge of the funeral arrangements.

Lazy Liver

You know very well how you feel when your liver don't act. Bile collects in the blood, bowels become constipated and your whole system is poisoned. A lazy liver is an invitation for a thousand pains and aches to come and dwell with you. Your life becomes one long measure of irritability and despondency and bad feeling. CASCARETS act directly, and in a peculiarly happy manner on the liver and bowels, cleansing, purifying, revitalizing every portion of the liver, driving all the bile from the blood, as is soon shown by increased appetite for food, power to digest it, and strength to throw off the waste. Beware of imitations!

"I have been troubled a great deal with a rapid increase of poops and constipation. I took CASCARETS to all your claim for them, and secured such relief the first trial that I purchased another supply and am completely cured. I shall only be too glad to recommend Cascarets whenever the opportunity is presented." J. A. SMITH, 2220 Susquehanna Ave., Philadelphia, Pa.

"He did it quickly and systematically and

Frank Lynwood was arrested by Deputy Constable Dennis Johnson yesterday afternoon on the charge of disturbing the peace.

The Miner's Association of Southern California has opened headquarters at No. 212 West First street. Maj. George N. Nolan is in charge.

Sadie Gordon, 5 years old, who lives with her parents at No. 805 East First street, got a large silver in her right foot last night and had to be taken to the Receiving Hospital to have it extracted.

A sneak thief entered the home of Mrs. Cohen, No. 1120 South Grand avenue, on Tuesday afternoon and stole from a dresser a purse containing \$23 and a plain gold ring. Yesterday Mrs. Cohen reported her loss to the police. There are undelivered telegrams at the Western Union telegraph office for Mrs. Carrie Scott, C. A. Brown, Esq., H. C. Nelson, Mrs. B. Steele, Arthur Bull, Edward Knapp, Louise Marie Lolly Schwarze, Mrs. F. M. Blumauer.

City Marshal Lacy of Pasadena reported to the police yesterday morning that the theft of a black horse and a red Concord buggy. It is believed that the stolen property was brought to this city and the detectives will keep a lookout for it.

The police were notified yesterday that Mrs. Kate Riley of No. 44 Alessandro avenue, Pasadena, had disappeared from her home, and the officers will attempt to locate her. So far as known the woman's reason for the woman's disappearance.

Edward Wahl, an employee of the Los Angeles Railway Company, while helping to unload rails yesterday afternoon, had the misfortune to be thrown to the ground by getting the end of one of the rails entangled in his clothing. His forehead struck on the rail as he fell and he sustained a severe gash, which was stitched up by Dr. Ralph Hagan in the Receiving Hospital.

OFFICERS AFTER MATTOX.

His Mother Says He Inherited a Mania for Killing.

Sheriff W. F. Pierce of Newkirk, Okla., accompanied by a deputy, has arrived in Los Angeles after Clyde Mattox, who is wanted on a charge of murdering a man named Sweeney at Ponca City, Okla., in March last. Mattox was arrested in this city by the police detectives on July 5 at the request of Sheriff Pierce. The officers expect to get their requisition papers in shape today or tomorrow, when they will leave with Mattox for the scene of the alleged murder.

Although not yet 30 years old, Mattox is credited with killing five men. His mother, it is said, claims that he inherited his mania for killing from her, stating that before Clyde was born she became greatly enraged at her husband and sought to take his life. She is said to have been quite wealthy, but most of her money has been spent in getting her son out of trouble. She will, however, stand by her boy to the last.

CHAMBER OF COMMERCE.

The board of directors of the Chamber of Commerce held their regular meeting yesterday afternoon. Resolutions were adopted endorsing the policy of the National Irrigation Association, in its endeavor to secure a large local membership, and recommending the cause as worthy of support.

J. M. Stauffer, agent of the Philadelphia Export Association, appeared before the board and asked that action be taken regarding an exhibit.

A committee, that had been appointed to look into the matter, made a report, and the board, that had accrued to the city from placing similar exhibits in the past, and recommended that the Chamber of Commerce send an exhibit to Philadelphia. The board deferred action.

The matter of the protection of the rights of the City Hall was again considered, and the committee was also instructed to take up the question of having the general ordinances properly codified. After the transaction of some routine business the board adjourned.

TEACHERS and visitors, procure a copy of the beautiful 100-page Official N.E.A. Souvenir of Southern California and its schools. On sale at book stores and in convention halls. Price 25 cents. The Times-Mirror Company Printing and Binding House, 110 North Broadway, Los Angeles.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

FOUND IN SAN FRANCISCO.

Missing Man from Belgium Located by Chief Lees.

Charles Andry, for whom an inquiry was received by Mayor Eaton several weeks ago from a woman in Belgium, who wrote that she is his wife, has been located in the San Francisco police at the request of Mayor Eaton and Vice Mayor. The letter was sent to the woman who made the inquiry. Early this month Mayor Eaton received a letter from a Mrs. Andry, asking that the authorities here assist her in her efforts to find her husband, Charles Andry. He was described as a gentle worker. The letter stated that he had left his home several years ago and come to this country, the last heard from him being from this city. The Mayor gave the letter to the newspapers and the fact of the inquiry was published. A few days later the Mayor received an anonymous communication informing him that Andry was in San Francisco, having left this city a short time before. The writer of the anonymous letter had noticed the publication about the letter from Belgium and took that means of informing the Mayor of the whereabouts of the man.

Mayor Eaton at once wrote to Chief of Police Lees of San Francisco, asking him to find Andry if possible, and informing him that the letter from his wife in Belgium had given the information that she had been sent to suppose she had been a wife and was having a hard struggle in doing so. Yesterday a letter was received from Chief Lees saying he had located Andry at No. 38 Elthim street in that city. To the officer who had been sent to see him Andry stated that he had separated from his wife in Belgium and that she had left him. Andry had a right to demand of her husband his assistance in supporting her six children. The letter from Chief Lees does not state whether Andry secured a divorce before remarrying or not.

Young Brown.

F. W. Brown, the young fellow who was seriously injured on Tuesday morning in a collision with a wagon while riding his bicycle, was resting easy last night at the Good Samaritan Hospital. Dr. McArthur, who is attending him, said that his patient had partially recovered consciousness, and that while he had suffered no concussion of the brain, there was no sign of compression. The wound is healing and his temperature is good.

Marriage Licenses.
